V. Application Review Information

1. *Selection Criteria:* The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section in this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section in this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. You must also submit an interim report nine months after the award date. This report should provide the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* We have identified the following key Government Performance and Results Act of 1993 (GPRA) performance measure for assessing the effectiveness of the EMHE Grants program: The percentage of EMHE grantees that demonstrate a 50 percent increase at the end of the project period in the number

of course completions by their higher education institution personnel in key National Incident Management System (NIMS) courses compared to the number of such courses completed at the start of the grant project period. This GPRA measure constitutes the Department's indicator of success for this program. Applicants for a grant under this program are advised to give careful consideration to this measure in designing their proposed project. Before beginning implementation of training connected to this grant, each grantee will be required to determine baseline data on the total number of these courses completed by personnel on its campus between April 2004 (when the courses first became available) and the project start date for their EMHE grant. Each applicant is strongly encouraged to include this information in its application if it is available. If it is not available during the application phase, each grantee will be required to collect and report baseline data in its interim report and both baseline and final progress with regard to this measure in its final report.

For the purposes of this measure, "key NIMS courses" are those identified by the Federal Emergency Management Agency (FEMA) in the Department of Homeland Security as requirements for NIMS compliance. To date these courses include the following: Incident Command System (ICS)-100 Introduction to ICS, ICS-200 ICS for Single Resources and Initial Action Incidents, ICS-300 Intermediate ICS, ICS-400 Advanced ICS, ICS-700 National Incident Management System: An Introduction, and ICS-800.B National Response Framework, An Introduction. ICS-100, ICS-200, ICS-700, and ICS-800.B courses are all available online as Independent Study (IS) courses offered through the FEMA's Emergency Management Institute (EMI) at: <http://training.fema.gov>. (It is not necessary that the key NIMS training requirements be met through a Federal source such as the on-campus resident courses or online distance learning courses offered by the EMI. The courses may also be taken through State, Tribal, and local emergency management training programs that offer equivalent, in-classroom training for completion.)

Note: Completion of course IS-100.SC Introduction to the Incident Command System, I-100, for Schools, constitutes completion of course ICS-100. This course was specifically designed to provide ICS training within a school-based context.
