Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: Emergency Management for Higher Education (EMHE) Grants support efforts by higher education institutions to develop, or review and improve, and fully integrate, campus-based all-hazards emergency management planning efforts within the framework of the four phases of emergency management [Prevention-Mitigation, Preparedness, Response, and Recovery].

Priority: We are establishing this priority for the FY 2008 grant competition and any subsequent year in which we make awards from the list of unfunded applicants from this competition in accordance with section 437(d)(1) of the General Education Provisions (GEPA), 20 U.S.C. 1232(d)(1).

Absolute Priority: This priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:
Develop, or Review and Improve, and Fully Integrate Campus-Based All-Hazards Emergency Management Planning Efforts for Higher Education Institutions.

A program funded under this absolute priority must use the framework of the four phases of emergency management (Prevention-Mitigation, Preparedness, Response, and Recovery) to:

(1) Develop, or review and improve, and fully integrate a campus-wide all-hazards emergency management plan that takes into account threats that may be unique to the campus;

(2) Train campus staff, faculty, and students in emergency management procedures;

(3) Ensure coordination of planning and communication across all relevant components, offices, and departments of the campus;

(4) Coordinate with local and State government emergency management efforts;

(5) Develop a written plan with emergency protocols that include the medical, mental health, communication, and transportation needs of persons with disabilities, temporary special needs of individuals, and other unique needs (including those arising from language barriers or cultural differences such as specific clothing expectations) of individuals;

(6) Develop or update a written plan that prepares the campus for infectious disease outbreaks with both short-term implications for planning (e.g., outbreaks caused by methicillin-resistant *Staphylococcus aureus* (MRSA) or food-borne illnesses) and
