SUPPLEMENTARY INFORMATION:**Background**

On September 25, 2007, the U.S. Department of Commerce ("the Department") published a notice of initiation of the administrative review of the countervailing duty order on corrosion-resistant carbon steel flat products from the Republic of Korea covering the period January 1, 2006, through December 31, 2006. *See*

Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part, 72 FR 54428 (September 25, 2007). The preliminary results are currently due no later than May 2, 2008.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. Section 751(a)(3)(A) of the Act further states that if it is not practicable to complete the review within the time period specified, the administering authority may extend the 245-day period to issue its preliminary results to up to 365 days.

Due to the complexity of the issues in this administrative review, such as direction of credit, we have determined that it is not practicable to complete the preliminary results of this review within the 245-day period. Therefore, in accordance with section 751(a)(3)(A) of the Act, we are fully extending the time period for issuing the preliminary results of the review. The preliminary results are now due no later than September 2, 2008, the next business day after 365 days after the last day of the anniversary month of the order. The final results continue to be due 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: April 22, 2008.

Under the provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), the National Oceanic and Atmospheric Administration's National Marine Fisheries Service (NMFS) is responsible for management of the Nation's marine fisheries. In addition, NMFS must comply with the United States' obligations under the Atlantic Tunas Convention Act of 1975 (16 U.S.C. 971 *et seq.*). NMFS issues permits to fishing vessels and dealers in order to collect the information necessary to comply with domestic and international obligations, secure compliance with regulations, and disseminate necessary information.

Current regulations at 50 CFR 635.4 require that vessels participating in commercial and recreational fisheries for Atlantic highly migratory species (HMS), and dealers purchasing Atlantic HMS from a vessel, obtain a Federal permit issued by NMFS. Current regulations at 50 CFR 300.182 require that individuals entering for consumption, exporting, or re-exporting consignments of bluefin tuna, southern bluefin tuna, swordfish, or frozen bigeye tuna obtain an HMS International Trade Permit (ITP) from NMFS. This action addresses the renewal of permit applications currently approved under Office of Management and Budget (OMB) Control No. 0648-0327, including vessel permits for Atlantic tunas, HMS charter/headboats, HMS angling, swordfish (directed, incidental, and hand gear), sharks (directed and incidental); dealer permits for the purchase of swordfish, sharks, and Atlantic tunas from vessels; and the HMS ITP.
