IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Fenvalerate

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked May 30, 2008. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to the request for cancellation of product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products identified or referenced in Table 1 of Unit III.: Registrants may sell and distribute existing stocks for 1 year from the date of the use termination request. The products may be sold, distributed, and used by people other than the registrant until existing stocks have been exhausted, provided that such sale, distribution, and use

complies with the EPA-approved label and labeling of the product.

If the request for voluntary cancellation is granted, the Agency intends to publish the cancellation order in the **Federal Register**.

covered by a System of Records Notice (SORN), WTB-1 "Wireless Services Licensing Records."

Needs and Uses: The Commission will submit this information collection (IC) to the OMB as an extension (no change in the reporting or third party disclosure requirements) during this comment period to obtain the full three-year clearance from them. There is no change in the estimated burden hours.

FCC Form 606 is used to associate a licensee's FCC Registration Number (FRN) to licensee's Wireless Telecommunications Bureau and/or Public Safety and Homeland Security Bureau call signs and antenna registration numbers with the FCC and filed through the Commission's Universal Licensing System (ULS).

The FCC previously adopted a rule requiring a mandatory FCC Registration Number (FRN). This requirement became effective 12/03/01, for all parties and entities doing business with the Commission who file applications with ULS or register towers via Antenna Structure Registration (ASR). As a result of the Commission Registration Number (CORES) and the implementation of the FRN, several important changes occurred for filers of ULS and ASR. This requirement was to facilitate compliance with the Debt Collection Improvement Act of 1996 (DCIA).

The information collected in the application will be used to populate the Universal Licensing System (ULS) for licensees and antenna structure registration owners who interact with ULS. This information will also be used to match records in the ULS database to the Collection System records to validate payment for application and Debt Collection Act purposes.
