

of the potential for TVA's Plan to affect wetlands and floodplains, respectively.

Comments on the scope of this EIS should be submitted no later than the date given under the **DATES** section of this notice. Any comments received, including names and addresses, will become part of the administrative record and will be available for public inspection.

TVA intends to hold a public scoping meeting on May 20, 2008. The open house style meeting will be held from 4–8 p.m. EDT at Sullivan Central High School, Blountville, Tennessee. Upon consideration of the scoping comments, TVA will develop alternatives and identify environmental issues to be addressed in the EIS. These will be described in a report that will be available to the public. Following analysis of the environmental consequences of each alternative, TVA will prepare a draft EIS for public review and comment. Notice of availability of the draft EIS will be published by the Environmental Protection Agency in the **Federal Register**. TVA will solicit comments on the draft EIS in writing and at public meetings to be held in the project area. TVA expects to release the draft EIS in early 2009 and the final EIS in the fall of 2009.

Surface Transportation Board

[STB Finance Docket No. 35087]

Canadian National Railway Company and Grand Trunk Corporation— Control—EJ&E West Company

AGENCY: Surface Transportation Board.

ACTION: Notice of Correction to the Final Scope of Study for the Environmental Impact Statement (EIS).

SUMMARY: The Section of Environmental Analysis (SEA) issued the Final Scope of Study in the above-captioned proceeding on April 25, 2008 and published the Final Scope of Study in the **Federal Register** on April 28, 2008. It has come to our attention that a statement on page 7 of the Final Scope is confusing and open to various interpretations.

Therefore, we will strike this language:

Thus, the EIS will use a five-year threshold from the date of the anticipated year of the issuance of a final decision (2015) for analysis of effects of increased rail traffic, such as vehicle delay. This year was selected because five years is not too long to produce reasonable and reliable freight rail forecasts.

And replace it with:

Thus, the EIS will use a year 2015 threshold for analysis of effects of increased rail traffic, such as vehicle delay. This year was selected because it would provide at least five years of data to be considered in order to produce reasonable and reliable freight rail forecasts.

Please correct your copies accordingly. A corrected version of the Final Scope is available on the Board's Web site at <http://www.stb.dot.gov>.

Decided: April 28, 2008.

By the Board, Victoria Rutson, Chief,
Section of Environmental Analysis.

[STB Finance Docket No. 35136]

Burlington Shortline Railroad, Inc., d/b/a Burlington Junction Railway— Lease and Operation Exemption— BNSF Railway Company

Burlington Shortline Railroad, Inc., d/b/a Burlington Junction Railway (BJR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to lease and to operate, pursuant to an agreement with BNSF Railway Company (BNSF), approximately 2.5 miles of BNSF railroad properties consisting of certain trackage, real property, and railroad operating rights located at Montgomery, IL. The rail properties being leased consist of land and tracks owned by BNSF adjacent to and within the Montgomery Industrial Park, located between milepost 39.40 and milepost 40.50 on BNSF's east-west Main 1, Track 3998, and Main 2, track 3999, but excluding BNSF's Main 1, Main 2, and the Old North Main Track 3900. In particular, the lease agreement pertains to track numbers 3901, 3902, 3903, 3904, the segment of track 3930 between tracks 3900 and 3932, and the segment of track 3930 between the northern terminus of track 3931 and track 3942.¹

BNSF is granting to BJR incidental trackage rights for interchange purposes over track 3900 (the Old North Main) between track numbers 3904 and 3930.

BNSF is also assigning to BJR its contractual rights to operate over certain

¹ BJR originally filed a notice of exemption to acquire and operate the subject rail properties in *Burlington Shortline Railroad, Inc., d/b/a Burlington Junction Railway Company—Acquisition and Operation Exemption—BNSF Railway Company*, STB Finance Docket No. 35121 (STB served Apr. 3, 2008, and published at 73 FR 18322). Ozinga Bros., Inc., filed a petition to reject or stay the exemption, and the Board issued a housekeeping stay on April 16, 2008, in that docket to allow time to consider any replies and to make an informed decision. BJR requested permission to withdraw that notice on April 21, 2008, and concurrently filed the instant notice clarifying that the acquisition transaction was by lease rather than purchase and explaining in more detail the involved rail property and the proposed transaction. By decision served on April 29, 2008, the Board granted BJR's withdrawal request, discontinued the proceeding in STB Finance Docket No. 35121, and vacated the stay in that proceeding as moot.

private industrial track (not owned by BNSF) used to serve shippers in the area, pertaining to track numbers 3905, 3906, 3907, 3908, 3909, 3914, 3915, 3920, 3931, 3932, 3933, 3940, 3941, 3942, 3943, 3944, 9916, 9976, and the portions of track 3930 not owned by BNSF.

BJR, in turn, is granting BNSF interchange rights for the use of BJR's leased yard tracks at Montgomery, IL, for the sole purpose of interchanging traffic between the parties on track numbers 3901 and 3902.

The earliest this exemption can be consummated is May 21, 2008, the effective date of the exemption (30 days after the exemption is filed).

BJR certifies that its projected annual revenues as a result of this transaction will not exceed those that qualify it as a Class III rail carrier and will not exceed \$5 million.

Pursuant to the Consolidated Appropriations Act, 2008, Public Law 110-161, section 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: Collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting and shredding). The term "solid waste" is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed by no later than May 14, 2008 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 35136, must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, a copy must be served on John D. Heffner, John D. Heffner, PLLC, 1750 K Street, NW., Suite 350, Washington, DC 20006.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: April 29, 2008.
