request testimony of an SSA employee. At 20 CFR 403.120(c), we provide a post office box address for you to use to request testimony of an SSA employee. The address has changed; therefore, we are updating the regulations to reflect the new address. We are not making any substantive changes to the regulations.

Regulatory Procedures
Justification for Final Rule
As required by section 702(a)(5) of the Social Security Act, 42 U.S.C. 902(a)(5), we follow the Administrative Procedure Act (APA) rulemaking procedures specified in 5 U.S.C. 553 in developing regulations. The APA provides that prior notice and public comment is not required when an agency finds good cause for dispensing with such procedures because they are impracticable, unnecessary, or contrary to the public interest. We have determined that, under 5 U.S.C. 553(b)(B), good cause exists here because this final rule only updates the address to be used for requesting testimony of an SSA employee. It makes no substantive changes to the regulations. Therefore, we have determined that opportunity for prior comment is unnecessary, and we are issuing this revision as a final rule.

In addition, we find good cause for dispensing with the 30-day delay in the effective date provided by 5 U.S.C. 553(d)(3). As explained above, we are not making any substantive changes to the regulations. Without the correct address, there could be a delay in receiving these requests for testimony of an SSA employee. In order to ensure that we continue to receive these requests timely, we find that it is in the public interest to make this final rule effective on the date of publication.

Executive Order 12866
We have consulted with the Office of Management and Budget (OMB) and determined that this final rule does not meet the criteria for a significant regulatory action under Executive Order 12866, as amended. Thus, it was not subject to OMB review.

Regulatory Flexibility Act
We certify that this final rule will not have a significant economic impact on a substantial number of small entities because they affect only individuals. Thus, a regulatory flexibility analysis as provided in the Regulatory Flexibility Act, as amended, is not required.

Paperwork Reduction Act
These regulations describe the procedures for an individual to request testimony of an SSA employee. The application for testimony is a paperwork burden that requires clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. SSA has already cleared the burden contained in 20 CFR 413.120 under OMB Number 0960–0619, and there is no change. Consequently, we are showing a 1-hour placeholder for the paperwork burden for this rule.

An Information Collection Request has been submitted to OMB for clearance. We are soliciting comments on the burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility and clarity; and on ways to minimize the burden on respondents, including the use of automated collection techniques or other forms of information technology.

Comments should be sent to OMB by fax or by e-mail to: Office of Management and Budget, Attn: Desk Office for SSA, Fax Number: 202–395–6974, E-mail address: OIRA_submission@omb.eop.gov.

Comments on the paperwork burdens associated with this rule can be received for up to 30 days after publication of this notice. When OMB has approved these information collection requirements, SSA will publish a notice in the Federal Register. To receive a copy of the OMB clearance package, please contact the Reports Clearance Officer at OPLM.RCO@ssa.gov.

Coast Guard

33 CFR Part 100
[Docket No. USCG–2008–0278]
RIN 1625–AA08

Special Local Regulations; Delaware River, Big Timber Creek, Westville, NJ

AGENCY: Coast Guard, DHS.
ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing special local regulations during the “Westville Parade of Lights”, a marine parade to be held on the waters of the Delaware River and Big Timber Creek, Westville, NJ. These special local regulations are necessary to provide for the safety of life on navigable waters during the event. This action is intended to restrict vessel traffic in a small portion of the Delaware River and Big Timber Creek during the event.

DATES: This rule is effective from 7 p.m. to 11:30 p.m. on June 28, 2008.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG–2008–0278 and are available online at http://www.regulations.gov. **SUPPLEMENTARY INFORMATION:**

**Regulatory Information**

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. Publishing an NPRM would be impracticable and contrary to public interest since immediate action is needed to minimize potential danger to the public during the event. The necessary information to determine whether the marine event poses a threat to persons and vessels was not provided with sufficient time to publish an NPRM. The potential dangers posed by a marine parade formation transiting the waterway with other vessel traffic at night makes special local regulations necessary to provide for the safety of participants, spectators and transiting vessels. These regulations are needed to control vessel traffic during the event to enhance the safety of spectators and transiting vessels.

**Regulatory Evaluation**

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

Although this regulation restricts vessel traffic from transiting a small portion of the Delaware River and Big Timber Creek during the event, the effect of this regulation will not be significant due to the limited duration that the regulated area will be in effect and the extensive advance notifications that will be made to the maritime community via Local Notice to Mariners and marine information broadcasts. Notice to the public may also be conveyed by local area newspapers, radio and TV stations so mariners can adjust their plans accordingly.

**Background and Purpose**

On June 28, 2008, the Borough of Westville, New Jersey and the Westville Power Boat Association will sponsor the “Westville Parade of Lights”. Approximately 20 power and sailing vessels will participate in a marine parade that will begin formation in the vicinity of the Route 130 Bridge and transit Big Timber Creek and terminate where the waterway joins the Delaware River. The event will also include a fireworks display launched from land, with a fall out area extending over the navigable waters of Big Timber Creek, Westville, NJ. Spectator vessels are expected to gather near the event site to view the on water activity. Due to the need for vessel control during the event, vessel traffic will be temporarily restricted to provide for the safety of participants, spectators and transiting vessels.

**Discussion of Rule**

The Coast Guard will establish temporary special local regulations on specified waters of the Delaware River and Big Timber Creek. The temporary special local regulations will be in effect from 7 p.m. to 11:30 p.m. on June 28, 2008. The effect will be to restrict general navigation in the regulated area during the marine event. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the regulated area during the enforcement period. The Patrol Commander will notify the public of specific enforcement times by marine radio and TV stations. These regulations are needed to control vessel traffic during the event to enhance the safety of spectators and transiting vessels.

**Small Entities**

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independent from Federal government, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit this segment of the Delaware River and Big Timber Creek during the event.

This temporary rule will not have a significant economic impact on a substantial number of small entities for the following reasons. This rule will be in effect for only a short period, from 7 p.m. to 11:30 p.m. on June 28, 2008. Although this regulation prevents traffic from transiting a small segment of the Delaware River and Big Timber Creek during the event, this temporary rule would not have a significant economic impact on a substantial number of small entities for the following reasons. The rule would be in effect for only a limited period. Vessel traffic may be able to transit around the regulated area or when event activity is halted, when the Coast Guard Patrol Commander deems it is safe to do so. Before the enforcement period, we will issue maritime advisories so mariners can adjust their plans accordingly.

**Assistance for Small Entities**

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

**Collection of Information**

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

**Federalism**

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

**Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In
particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(h), of the Instruction, from further environmental documentation.

A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” are available in the docket where indicated under ADDRESSES.
