

Administration, U.S. Department of Commerce, 14th Street and Constitution Ave, NW, Washington, DC 20230; telephone: (202) 482-4161.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2007, the U.S. Department of Commerce (“Department”) published a notice of initiation of the administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from India, covering the period December 1, 2005, to November 30, 2006. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 72 FR 5005 (February 2, 2007). On December 31, 2007, the Department published the preliminary results of the antidumping duty administrative review for certain hot-rolled carbon steel flat products from India. *See Certain Hot-Rolled Carbon Steel Flat Products from India: Notice of Preliminary Results of Antidumping Duty Administrative Review*, 72 FR 74267 (December 31, 2007). On April 7, 2008, the Department partially extended the time limit for the final results of this review. *See Certain Hot-Rolled Carbon Steel Flat Products from India: Extension of Time Limits for the Final Results of Antidumping Duty Administrative Review*, 73 FR 18753 (April 7, 2008). The final results of this review are currently due no later than May 14, 2008.

Extension for Time Limit of Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), requires the Department to issue final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to a maximum of 180 days. *See also* 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the final results of this review within the current time limit. Interested parties to this review submitted extensive comments and rebuttal comments on the preliminary results of this review, requiring substantial analysis by the Department. Thus, the Department is extending the final results by an additional 16 days, in accordance with section 751(a)(3)(A) of the Act, to allow sufficient time to thoroughly analyze interested parties’ case briefs and rebuttal briefs. The final results are now due no later than May 30, 2008. This extension is issued and

published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: May 9, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

(A-549-817)

Certain Hot-Rolled Carbon Steel Flat Products from Thailand: Notice of Rescission of Antidumping Duty Administrative Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On December 27, 2007, the U.S. Department of Commerce (the Department) published a notice of initiation of an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products (hot-rolled steel) from Thailand. The review covers two manufacturers/exporters: G Steel Public Company Limited (G Steel) and Nakornthai Strip Mill Public Company Limited (NSM). The period of review (POR) is November 1, 2006, through October 31, 2007. Based on requests from United States Steel Corporation (petitioner) and Nucor Corporation (Nucor), we are now rescinding this administrative review.

EFFECTIVE DATE: May 15, 2008.

FOR FURTHER INFORMATION CONTACT:

Stephen Bailey or Angelica Mendoza, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-0193 or (202) 482-9013, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 2007, the Department published a notice of opportunity to request an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from Thailand for the period November 1, 2006, through October 31, 2007. *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 72 FR 61859 (November 1, 2007). On November 30, 2007, petitioner, a domestic producer of the subject merchandise, and Nucor made timely requests that the

Department conduct an administrative review of G Steel and NSM. On December 27, 2007, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act), the Department published in the **Federal Register** a notice of initiation of this antidumping duty administrative review. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 72 FR 73315 (December 27, 2007).

On January 2, 2008, both G Steel and NSM submitted a letter to the Department certifying that the companies made no shipments or entries for consumption in the United States of the subject merchandise during the POR and requested that the Department rescind their respective administrative reviews. On February 15, 2008, the Department issued a memorandum to the file detailing our request to U.S. Customs and Border Protection (CBP) for import data for G Steel and NSM during the POR. *See Memorandum to the File* titled, “G Steel Public Company Limited and Nakornthai Strip Mill Public Company Limited – No Shipments of Certain Hot-Rolled Carbon Steel Flat Products from Thailand Pursuant to U.S. Customs and Border Protection Inquiry,” from Dena Crossland, Analyst, dated February 15, 2008 (CBP Memo). The Department explained in the CBP Memo that it received no reply from CBP regarding our request for shipment and entry information, and the Department preliminarily determined that neither company had shipments or entries of subject merchandise during the POR. On March 11, 2008, both petitioner and Nucor submitted letters requesting that the Department rescind the administrative review with respect to both G Steel and NSM.

Scope of the Antidumping Duty Review

The products covered by this antidumping duty review are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness

not less than 4.0 mm is not included within the scope of this review.

Specifically included within the scope of this review are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this review, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products in which: i) iron predominates, by weight, over each of the other contained elements; ii) the carbon content is 2 percent or less, by weight; and iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this review unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this review:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, American Society for Testing and Materials (ASTM) specifications A543, A387, A514, A517, A506).
- Society of Automotive Engineers (SAE)/American Iron & Steel Institute (AISI) grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the

HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.

- ASTM specifications A710 and A736.
- USS abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this review is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90, 7208.40.60.30, 7208.40.60.60, 7208.53.00.00, 7208.54.00.00, 7208.90.00.00, 7211.14.00.90, 7211.19.15.00, 7211.19.20.00, 7211.19.30.00, 7211.19.45.00, 7211.19.60.00, 7211.19.75.30, 7211.19.75.60, and 7211.19.75.90. Certain hot-rolled carbon steel flat products covered by this review, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and CBP purposes, the written description of the merchandise is dispositive.

Rescission of the Administrative Review

Pursuant to 19 CFR § 351.213(d)(1), the Secretary will rescind an administrative review under this section, in whole or in part, if a party that requested a review withdraws the request within 90 days of the date of

publication of notice of initiation of the requested review.

Because petitioner and Nucor submitted their requests to rescind the administrative review of G Steel and NSM within 90 days of the date of publication of the notice of initiation, the Department is rescinding this review in accordance with 19 CFR 351.213(d)(1). The Department intends to issue assessment instructions to CBP 15 days after the date of publication of this rescission of administrative review.

This notice serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.213(d)(4).

Dated: May 8, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

RIN 0648-XH73

Gulf of Mexico Fishery Management Council; Public Hearings; Cancellation

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public hearings.

SUMMARY: The Gulf of Mexico Fishery Management Council is cancelling the previously published public hearing on Aquaculture Amendment scheduled on Wednesday, May 28, 2008. The Council will publish a **Federal Register** notice when dates for this hearing are set.

DATES: The public hearing scheduled to convene at 6 pm on Wednesday, May 28, 2008 and conclude no later than 9 pm has been cancelled and will be rescheduled at a later date.

Council address: Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, Florida 33607.
