*Nature and Extent of Confidentiality:* In general, there is no need for confidentiality.

*Needs and Uses:* The Federal Communications Commission (“FCC”) proposes to establish a new information collection (IC) titled “International Special Projects (ISP) Petitions for Declaratory Ruling.” The purpose of this information collection is to facilitate the public’s voluntary filing of miscellaneous requests with the FCC,

such as a waiver of the Commission’s rules or foreign ownership matters, in an electronic module in the International Bureau’s Filing System (IBFS). Filers have the option to upload paper copies of documents in IBFS in lieu of mailing documents to the FCC Secretary’s Office. However, they may file documents in the FCC Secretary’s Office by postal mail instead of filing them electronically in IBFS. The filing of documents in IBFS saves time and costs for the general public since they would save the cost of postage to mail the documents to the FCC. It also guarantees that when the respondents “submit” their documents in IBFS, those documents are received at the FCC on the same day.

Furthermore, FCC staff and members of the public can track the receipt and status of documents received electronically in the IBFS.

**Agency Information Collection Activities: Proposed Information Collection; Comment Request**

**AGENCY:** Federal Deposit Insurance Corporation (FDIC).  
**ACTION:** Notice and request for comment.

**SUMMARY:** The FDIC, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on a proposed new collection of information, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35). The collection is related to a mandate under section 7 of the Federal Deposit Insurance Reform Conforming Amendments Act of 2005 (“Reform Act”) (Pub. L. 109–173), which calls for the FDIC to conduct ongoing surveys “on efforts by insured depository institutions to bring those individuals and families who have rarely, if ever, held a checking account,

a savings account or other type of transaction or check cashing account at an insured depository institution (hereafter in this section referred to as the ‘unbanked’) into the conventional finance system.” Section 7 further instructs the FDIC to consider several factors in its conduct of the surveys, including: (1) “What cultural, language and identification issues as well as transaction costs appear to most prevent ‘unbanked’ individuals from establishing conventional accounts”; and (2) “what is a fair estimate of the size and worth of the ‘unbanked’ market in the United States.” To satisfy the Congressional mandate, the FDIC intends to conduct two complementary surveys. One is a survey of FDIC-insured depository institutions on their efforts to serve underbanked, as well as unbanked, populations (underbanked populations include individuals who have an account with an insured depository but also rely on non-bank alternative financial service providers for transaction services or high-cost credit products). The FDIC has already obtained OMB approval for this survey and the survey effort is currently in process. The other is a survey of U.S. households to estimate the size and worth of the unbanked and underbanked markets and to identify the factors that inhibit their

participation in the mainstream banking system. The household survey would be conducted for the FDIC by the U.S. Bureau of the Census, as a supplement to its monthly Current Population Survey (CPS) in January 2009. This notice addresses the household survey.
