K-Industries, USA, LCC; Including Workers Whose Wages Were Paid By Ultimate Staffing Service Riviera Beach, FL; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on April 9, 2008, applicable to workers of K-Industries, USA, LLC, Riviera Beach, Florida. The notice was published in the **Federal Register** on April 23, 2008 (73 FR 21991).

At the request of a State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of injection-molded plastic parts.

New information provided to the Department shows that before January 2008, some workers of the subject firm were formerly from Ultimate Staffing Service, employed on-site, and sufficiently under control of K Industries USA to be considered leased workers. These workers had their wages reported under the Unemployment Insurance (UI) tax account for Ultimate Staffing Service.

Accordingly, the Department is amending this certification to properly reflect this matter.

The intent of the Department's certification is to include all workers of K-Industries, USA, LLC who were adversely affected by a shift in production to the Dominican Republic.

The amended notice applicable to TA-W-63,086 is hereby issued as follows:

All workers of K-Industries, USA, LLC, including workers who's wages were paid by Ultimate Staffing Service, Riviera Beach, Florida, who became totally or partially separated from employment on or after March 27, 2007, through April 9, 2010, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC, this 15th day of May 2008.

SUPPLEMENTARY INFORMATION:

Title of Collection: Descriptive and Exploratory Study of the National Science Foundation's Small Grants for Exploratory Research Funding Mechanism.

OMB Number: 3145-NEW.

Abstract: The SGER funding mechanism was developed in 1989 by an external committee, and authorized by NSF Director Bloch for use beginning at the start of Fiscal Year 1990. The committee's charge was to recommend whether NSF as a whole should adopt a mechanism similar to one that had been piloted by the Engineering Directorate, known as Small Grants for Expedited Research. While that title emphasized award timeliness, the mechanism's purposes included funding innovative research ideas. The current formulation of SGER remains conceptually and administratively similar to its original purposes and practices. Over time, NSF has broadened award parameters (award ceiling and duration) and sharpened definitions of purposes (e.g., inserting the term Transformative Research). In at least one case the SGER mechanism was modified for a specific program purpose (the Nanoscale Exploratory Grants, which were externally reviewed).

All applicants will be asked about topics relating to the application process (how they found out about SGER, why this mechanism and not a standard proposal, etc.). Awardees will also be asked about activities resulting from their awards, such as follow-on proposals, involvement of graduate students, and testing of new instrumentation. Declinees will be asked, for example, what action they took concerning the declined proposal (wrote standard proposal to NSF or another agency, and whether that was awarded). All applicants will be asked about the guidelines and funding and mechanism, and how they can be improved, e.g., through changes in their design components, expected outcomes, proposal review criteria, etc.

The survey data collection will be done on the World Wide Web.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 30 minutes per response.

Respondents: Government grant holders—Individuals.

Estimated Number of Responses per Form: 3,778 for the awardee questionnaire and 580 for the non-awardee questionnaire for a total of 4,358.

Estimated Total Annual Burden on Respondents: Aggregate total of 1,430 hours.

Frequency of Response: Once.
