

organizations, such as national laboratories and nonprofit research institutions, to support, promote, and accelerate innovation in the United States through high-risk, high-reward research in areas of critical national need. High-risk, high-reward research is research that:

a. has the potential for yielding transformational results with far-ranging or wide-ranging implications;

b. addresses areas of critical national need that support, promote, and accelerate innovation in the United States and is within NIST's areas of technical competence; and is too novel or spans too diverse a range of disciplines to fare well in the traditional peer-review process.

Affected Public: U.S. businesses and institutions of higher education or other organizations, such as national laboratories and nonprofit research institutions.

Frequency: Annually.

Respondent's Obligation: Required to obtain or retain a benefit.

DEPARTMENT OF COMMERCE

**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Coral Reef Valuation Study.

OMB Approval Number: None.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 990.

Number of Respondents: 1,980.

Average Hours Per Response: 30 minutes.

Needs and Uses: This is a national survey using two independently recruited Internet panels: the American National Election Study (ANES) Internet Panel and Stanford's Major Research Instrumentation Panel (MRI) Internet Panel. The survey is designed to yield information that can be used to estimate total economic values for protection and restoration of Hawaii's coral reef ecosystems. The survey addresses the public's preferences and economic values for the use of no-take areas as a management tool and the public's preferences and economic values for restoring damaged coral reefs.

NOAA is a member of the U.S. Coral Reef Task Force (CRTF), which was established in June 1998 through Executive Order (EO) 13089. As a member of the CRTF, and in support of the U.S. Coral Reef Initiative, NOAA has significant responsibilities for managing U.S. coral reef habitats and undertaking scientific studies to better manage the nation's coral reef resources. In March 2000, the task force approved the first-ever National Action Plan to Conserve Coral Reefs pursuant to the Coral Reef Conservation Act (16 U.S.C. 6401-6409). The Action Plan identifies 13 major goals, including five that the proposed research addresses: (1) Conduct strategic research, (2) understand the social and economic factors of coral reef ecosystems, (3) improve the use of marine protected areas (MPAs), (4) restore damaged reefs, and (5) improve outreach and education about coral reef ecosystems. In support of NOAA's fulfillment of these goals, this study is designed to develop a survey instrument to elicit economic values for Hawaiian coral reef ecosystems at the national level. The overall objective of this project is to develop economically valid and reliable national estimates of individuals' values for alternative Hawaiian coral reef protection and improvement options.

Affected Public: Individuals or households.

Frequency: One-time only.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington,

DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number (202) 395-7285, or David_Rostker@omb.eop.gov.

Dated: May 22, 2008.
