Agricultural Marketing Service

Title: Laboratory Approval Programs.

OMB Control Number: 0581-NEW.

Summary of Collection: The Agricultural Marketing Act (AMA) of 1946, as amended, provides analytical testing services that facilitate marketing and allow products to obtain grade designations or meet marketing or quality standards. Pursuant to this authority, AMS develops and maintains laboratory certification and approval programs as needed by the agricultural industry, to support domestic and international marketing of U.S. products. To ensure that a laboratory is capable of accurately performing the specified analyses, it must adhere to certain good laboratory practice and show technical proficiency in the required areas.

Need and Use of the Information: Checklist and form have been developed that ask the laboratory for information concerning procedures, the physical facility, employees, and their training. The laboratory must also provide Standard Operating Procedures for the analyses and quality assurance. The laboratory certification and approval programs are voluntary, fee for service, and for admission into one of these programs a laboratory must have a client who requires the specific testing. It is necessary to collect and require a laboratory to attest to the performance elements necessary to determine the credibility of the laboratory. To do less would be a disservice to the agricultural community.

Description of Respondents: Business or other for-profit.

Number of Respondents: 82.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 5,695.
