

standards established by EPA that are to protect the environment. Section 3005 provides for implementation of these standards under permits issued to owners and operators by EPA or authorized States. Section 3005 also allows owners and operators of facilities in existence when the regulations came into effect to comply with applicable notice requirements to operate until a permit is issued or denied. This statutory authorization to operate prior to permit determination is commonly known as "interim status." Owners and operators of interim status facilities also must comply with standards set under Section 3004.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 123 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for-profit; and State, local, or Tribal governments.

Estimated Number of Respondents: 989.

Frequency of Response: quarterly, semi-annually, and annually.

Estimated Total Annual Hour Burden: 121,577.

Estimated Total Annual Cost: \$27,818,073, includes \$4,628,246 annualized labor and \$23,189,829 capital or O&M costs.

Changes in the Estimates: There is an increase of 26,380 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The reason for the increase in hourly burden is an increase in the universe from 824 for the previous ICR to 989 for this renewal, which can be explained by improvements in the RCRAInfo database, allowing for more accurate counts.
