Title: Air Stationary Source Compliance and Enforcement Information (Renewal).

ICR Numbers: EPA ICR No. 0107.09, OMB Control No. 2060-0096.

ICR Status: This ICR is scheduled to expire on June 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in Title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR Part 9.

Abstract: Source Compliance and State Action Reporting is an activity whereby State, District, Local, and Commonwealth governments make air compliance and enforcement information available to the U.S. Environmental Protection Agency (EPA or the Agency) on a cyclic basis via input to the Air Facility System (AFS). The information provided to EPA includes compliance activities and determinations, and enforcement activities. EPA uses this information to assess progress toward meeting emission requirements developed under the authority of the Clean Air Act (CAA or the Act) to protect and maintain the atmospheric environment and the public health. The EPA and many of the state and local agencies access the data in AFS to assist them in the management of their air pollution control programs.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 131 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing

and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and Local Agencies.

Estimated Number of Respondents: 93.

Frequency of Response: 6 times per year.

Estimated Total Annual Hour Burden: 73,073.

Estimated Total Annual Cost: \$3,504,531.00, inclusive of labor costs, and \$0.00 for both annualized capital and O&M costs.

Changes in the Estimates: There is a decrease of 25,110 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to: Reduction in the major source universe, increase in the use of the Universal Interface software program, significant differences in the level of effort provided by different agencies in the maintenance and oversight of data, and the reduction of startup costs from the previous ICR.

Dated: May 23, 2008.

Agency Information Collection Activities: Proposed Collection; Comment Request; Water Quality Standards Regulation (Renewal), EPA ICR Number 988.10, OMB Control Number 2040-0049

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit a request to renew an existing approved Information Collection Request (ICR) to the Office of Management and Budget (OMB). This ICR is scheduled to expire on November 30, 2008. Before submitting the ICR to OMB for review and approval, EPA is soliciting

comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before August 1, 2008.

ADDRESSES: Submit your comments, identified by docket ID No. EPA-HQ-OW-2008-0356 by one of the following methods:

- <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- *E-mail:* ow-docket@epa.gov.

- *Mail:* EPA Docket Center, Water Docket, Environmental Protection Agency, Mailcode 28221T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

- *Hand delivery:* Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OW-2008-0356. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through <http://www.regulations.gov> or e-mail information that you consider to be CBI or otherwise protected. The <http://www.regulations.gov> Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov> your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket, visit the EPA

Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

SUPPLEMENTARY INFORMATION:

How Can I Access the Docket and/or Submit Comments?

EPA has established a public docket for this ICR under Docket ID number EPA-HQ-OW-2008-0356, which is available for online viewing at <http://www.regulations.gov> or in person viewing at the Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426.

Use <http://www.regulations.gov> to obtain a copy of the draft collection of information, submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified in this document.

What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In

particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected Entities: Entities potentially affected by this action are all States and certain authorized Indian tribes that adopt water quality standards under the Clean Water Act; and water dischargers subject to certain requirements related to water quality standards in the Great Lakes system, including dischargers in the following SIC categories: Mining (SIC codes 10, 14); Food (20); Pulp and Paper (26); Inorganic Chemical Manufacturing (281); Organic Chemical Manufacturing (28); Petroleum Refining (29); Metal Manufacturing (33), Metal Finishing (34-37); Steam Electric (4911), and Publically Owned Treatment Works (4952). For the purposes of the Regulation, the term "State" means the 50 States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

Title: Water Quality Standards Regulation (Renewal).

ICR Number: EPA ICR No. 988.10, *OMB Control No.* 2040-0049.

ICR Status: This ICR is currently scheduled to expire on November 30, 2008. An Agency may not conduct or sponsor, and a person is not required to

respond to a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Water quality standards are provisions of State, Tribal, and Federal law that consist of designated uses for waters of the United States, water quality criteria to protect the designated uses, and an antidegradation policy. Section 303(c) of the Clean Water Act requires States and authorized Tribes to establish water quality standards, and to review and, if appropriate, revise their water quality standards once every three years. The Act also requires EPA to review and either approve or disapprove the new or revised standards, and to promulgate replacement Federal standards if necessary. Section 118(c)(2) of the Act specifies additional water quality standards requirements for waters of the Great Lakes system.

The Water Quality Standards Regulation (40 CFR part 131 and portions of part 132) governs national implementation of the water quality standards program. The Regulation describes requirements and procedures for States and authorized Tribes to develop, review, and revise their water quality standards, and EPA procedures for reviewing and approving the water quality standards. The regulation requires the development and submission of information to EPA, including:

—The minimum elements in water quality standards that each State or Tribe must submit to EPA for review, including any new or revised water quality standards resulting from the jurisdiction's triennial review (40 CFR 131.6 and 131.20). The elements include use designations for specific water bodies; methods used and analyses conducted to support water quality standards revisions; supporting analysis for use attainability analyses; water quality criteria sufficient to protect the designated uses; methodologies for site-specific criteria development; an antidegradation policy; certification by the jurisdiction's Attorney General or other appropriate legal authority that the water quality standards were duly adopted pursuant to State or Tribal law; information that will aid EPA in determining the adequacy of the scientific basis for the standards; and information on general policies that may affect the implementation of the standards.

- Information that an Indian Tribe must submit to EPA in order to determine whether a Tribe is qualified to administer the water quality standards program (40 CFR 131.8).
- Information a State or Tribe must submit if it chooses to exercise a dispute resolution mechanism for disputes between States and Tribes over water quality standards on common water bodies (40 CFR 131.7).
- Information related to public participation requirements during State and Tribal review and revision of water quality standards (40 CFR 131.20). States and Tribes must hold public hearings as part of their triennial reviews, and make any proposed standards and supporting analyses available to the public before the hearing.

The Regulation establishes specific additional requirements for water quality standards and their implementation in the waters of the Great Lakes system, contained in the Water Quality Guidance for the Great Lakes System (40 CFR part 132). This portion of the Regulation includes the following requirements for information collection: bioassay tests to support the development of water quality criteria; studies to identify and provide information on antidegradation control measures that will guard against the reduction of water quality in the Great Lakes system; and information collection and recordkeeping activities associated with analyses and reporting to request regulatory relief from Guidance requirements. The Guidance includes additional information collections that are addressed in separate Information Collection Requests for the National Pollutant Discharge Elimination System program.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 988 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The following estimates are based on estimates from the previous ICR renewal and will be revised prior to OMB submission. The public will have a second opportunity to comment before then. The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 2,796.¹

Frequency of response: At least once every 3 years.

Estimated total average number of responses for each respondent: 0.095.

Estimated total annual burden hours: 260,714 hours.

Estimated total annual costs: \$12,063,453. This cost consists entirely of the estimated burden cost since there are no capital investment or maintenance and operational costs.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Good Neighbor Environmental Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of meeting.

SUMMARY: Under the Federal Advisory Committee Act, Pub. L. 92463, EPA gives notice of a meeting of the Good Neighbor Environmental Board. The Board meets three times each calendar year at different locations along the U.S.-Mexico border and in Washington, DC. It was created by the Enterprise for the Americas Initiative Act of 1992. An

¹ **Note:** EPA estimates that of the estimated total number of potential respondents there will likely be only 264 responses.

Executive Order delegates implementing authority to the Administrator of EPA. The Board is responsible for providing advice to the President on environmental and infrastructure issues and needs within the States contiguous to Mexico. The statute calls for the Board to have representatives from U.S. Government agencies; the States of Arizona, California, New Mexico and Texas; tribal representation; and a variety of non-governmental officials. The purpose of this meeting is to hear presentations on local environmental issues as well as the theme selected for the Board's Twelfth Report: Innovation, including Incentives, to Prevent/Reduce Pollution at the U.S. Mexico Border. The meeting also will include a public comment session and a business meeting on the second day. A copy of the meeting agenda will be posted at <http://www.epa.gov/ocem/gneb>.

DATES: The Good Neighbor Environmental Board will hold an open meeting on Wednesday, June 18, from 8:30 a.m. to 4 p.m. and Thursday, June 19, from 8:30 a.m. to 1 p.m.

ADDRESSES: The meeting will be held in the Imperial Valley Campus Library of San Diego State University, 720 Heber Avenue, Calexico, CA 92231. Telephone: (760) 768-5585. It is open to the public, with limited seating on a first-come, first-served basis.

FOR FURTHER INFORMATION CONTACT: Lorena Cedeño-Zambrano, Acting Designated Federal Officer, cedeno-zambrano.lorena@epa.gov, 202-566-0978, U.S. EPA, Office of Cooperative Environmental Management (1601M), 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: Requests to make brief oral comments or provide written statements to the Board should be sent to Lorena Cedeño-Zambrano, Acting Designated Federal Officer, at the contact information above.

Meeting Access: For information on access or services for individuals with disabilities, please contact Lorena Cedeño-Zambrano at the contact information above. To request accommodation of a disability, please contact Lorena Cedeño-Zambrano, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: May 20, 2008.
