MARINE MAMMAL COMMISSION

Availability of Grant Funds for Fiscal Year 2008

AGENCY: Marine Mammal Commission.

ACTION: Notice.

Authority: Marine Mammal Protection Act of 1972 (1361 et seq.)

SUMMARY: The U.S. Marine Mammal Commission is seeking proposals for research and related activities that will further the conservation and management goals of the Marine Mammal Protection Act. Proposals should be tailored to address either of two focused research topics: (1) Conservation of Critically Endangered Marine Mammal Species or Populations and (2) Indirect Effects of Fisheries on Marine Mammals.

Grantees or contractors whose projects involve the taking of marine mammals will be expected to obtain all necessary permits and authorizations for their projects before engaging in such activities.

Information on the focused research topics, selection criteria, required formats for full proposals, the submission process, and the submission schedule is provided below.

Financial Information: A total of $450,000 has been allocated for this RFP. Allocation of the total amount between the two focused research topics will be determined by the nature and quality of proposals within each topic and the degree to which the selected proposals contribute to an integrated program of effort within each research topic as determined during the final review phase.

Duration of Effort: The Commission strongly encourages that proposals be limited to a single period of effort, usually one year. Multi-year proposals, not to exceed three years, may be considered, but only if a strong case can be made for the necessity of a prolonged effort.

Individual Award Amount: No upper or lower limit has been set for an individual proposal due to the wide range of potential levels of effort within each focused research topic. However, it is anticipated that few if any awards will exceed $50,000 to $100,000, and that most will range between $30,000 and $50,000, based on the Commission’s
