The BIA published a Notice of Intent to prepare an EIS for the original application on April 19, 2006, in the *Federal Register* (71 FR 20126). The notice included project details, which remain unchanged in the renewed application. As this notice on the renewed application in effect resumes work on the EIS, public scoping for the issues and alternatives to be analyzed in the EIS has already been done. The BIA will not, therefore, hold any additional public scoping meetings. This notice, however, does provide the public another 30-day period to submit comments on what should be covered in the EIS.

Areas of environmental concern identified for analysis in the EIS include land resources, water resources, biological resources, cultural resources, traffic and transportation, noise, air quality, public health/environmental hazards, public services and utilities, hazardous waste and materials, socio-economics, environmental justice and visual resources/aesthetics. In addition to the proposed action, alternatives identified for analysis include no-action, reduced-intensity development and two alternate sites. The range of issues and alternatives are open to expansion based on comments received in response to this notice.
