

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that the proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change establishes or changes a due, fee, or other charge imposed by the Exchange, it has become effective upon filing pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(2) thereunder.¹¹ At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

[Public Notice 6251]

Notice of Availability of the Final Environmental Assessment and a Finding of No Significant Impact for the Proposed Enbridge Southern Lights Pipeline Project

AGENCY: Department of State.

ACTION: Notice of Availability of the Final Environmental Assessment and a Finding of No Significant Impact for the Proposed Enbridge Southern Lights Pipeline Project.

SUMMARY: This notice announces the availability of the Final Environmental Assessment and a Finding of No Significant Impact for the Proposed Enbridge Southern Lights Pipeline Project.

On April 19, 2007, Enbridge Pipelines (Southern Lights) L.L.C. applied for a Presidential permit to construct, connect, operate, and maintain facilities (including a 20-inch diameter pipeline) at the U.S.-Canadian border at Neche, Pembina County, North Dakota, for the purpose of transporting liquid hydrocarbons and other petroleum products between the United States and Canada. EPSL seeks this authorization in connection with its Southern Lights Pipeline Project ("LSr Project"), which is designed to transport Canadian crude oil from the Western Canadian Sedimentary Basin ("WCSB") to existing refinery markets in the Midwest region of the United States.

Executive Order 13337 of April 30, 2004, as amended, delegates to the Secretary of State the President's authority to receive applications for permits for the construction, connection, operation, or maintenance of facilities, including pipelines, for the exportation or importation of petroleum, petroleum products, coal, or other fuels at the border of the United States and to issue or deny such Presidential Permits upon a national interest determination. The Executive Order directs the

Secretary of State to refer the application and pertinent information to, and to request the views of, the heads of certain agencies before issuing a Permit and authorizes the Secretary to consult with other interested federal and state officials, as appropriate. The Executive Order also authorizes **Federal Register** notification of receipt of Presidential permit applications and for public comments on those applications. The functions assigned to the Secretary have been further delegated within the Department of State.

The Department of State published in the **Federal Register** a Notification of Receipt and Notice of Intent to prepare an Environment Assessment (EA) regarding the EPSL Application for a permit on July 27, 2007 (72 FR 41383). That notification solicited public comment on the application for a 45-day period, and announced the Department of State would conduct public scoping meetings along the proposed route. The Department's Notice of Availability of the draft EA and request for public comment was published in the **Federal Register** on November 29, 2007 (72 FR 67335), seeking comments by December 28, 2007. The Department received public comments in response to its two notices and has taken them into account in preparing the Final Environmental Assessment on the EPSL Application.

As required by Executive Order 13337, EPSL's pipeline application and a Draft Environmental Assessment were also transmitted to the relevant federal agencies for their review and comment on November 29, 2007. The Department of State received no objections from federal agencies regarding the issuance of a permit.

In accordance with the National Environmental Policy Act of 1969 ("NEPA"), 42 U.S.C. 4321-4370f, the Council of Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA, 40 CFR Parts 1500-1508, and the Department's regulations for the implementation of NEPA, 22 CFR Part 161, EPSL has prepared a Final Environmental Assessment (FEA) under the guidance and supervision of the Department, with full public participation, including public meetings and ample opportunity for written and oral public comment on the project. Based on the FEA and the record created as part of the Department's evaluation of the EPSL application, on June 2, the Department determined that "issuance of a Presidential Permit authorizing construction of the proposed Southern Lights Pipeline would not have a significant impact on the quality of the human environment within the United
