SUPPLEMENTARY INFORMATION:

A. Background

This proposed rule amends the General Services Administration Acquisition Regulation (GSAR) by adding a new Subpart, 519.70, GSA Mentor-Protegé Program. The GSA Mentor-Protegé Program is designed to assist small businesses in enhancing their capabilities to perform GSA contracts and subcontracts. This proposed rule would apply are small business proteges. It is estimated that there will be approximately 150 small business concerns impacted by this rule. The proteges (small businesses) will be completing the Agreement with the mentor. In addition, the proteges may complete voluntary reports pertaining to the GSA Mentor-Protegé Program.

The Regulatory Secretariat will be submitting a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. GSA will consider comments from small entities concerning the affected GSAR parts 519 and 552 in accordance with 5 U.S.C. 610. Comments must be submitted separately and should cite 5 U.S.C. 601, et seq. (GSAR Case 2006–G501), in all correspondence.

B. Regulatory Flexibility Act

The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the rule will provide an opportunity for small business concerns to become proteges and receive developmental assistance from GSA prime contractors under GSA contracts. The GSA Mentor-Protegé Program is intended to provide subcontracting opportunities for proteges to gain valuable experience and knowledge about Federal Government contracting.

An Initial Regulatory Flexibility Analysis (IRFA) has been prepared. The analysis is summarized as follows: This proposed rule establishes a GSA Mentor-Protegé Program to encourage GSA prime contractors to assist small businesses, small disadvantaged businesses, women-owned small businesses, veteran-owned small businesses, service-disabled veteran-owned small businesses, and HUBZone small businesses in enhancing their capabilities to perform GSA contracts and subcontracts, foster the establishment of long-term business relationships between these small business entities and GSA prime contractors, and increase the overall number of small business entities that receive GSA contract and subcontract awards.

In accordance with the Small Business Act, it is the policy of the Government to provide maximum practicable opportunities to small entities in its acquisitions to these small business concerns and allow them to have the maximum practicable opportunity to participate as subcontractors in the contracts awarded by any executive agency, consistent with efficient contract performance. The General Services Administration Mentor-Protegé Program is designed to assist in this policy by encouraging GSA prime contractors to assist small businesses in enhancing their capabilities to perform contracts and subcontracts.

The entities to which this rulemaking would apply are small business proteges. It is estimated that there will be approximately 150 small business concerns impacted by this rule. The proteges (small businesses) will be completing the Agreement with the mentor. In addition, the proteges may complete voluntary reports pertaining to the GSA Mentor-Protegé Program.

The Regulatory Secretariat will be submitting a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. GSA will consider comments from small entities concerning the affected GSAR parts 519 and 552 in accordance with 5 U.S.C. 610. Comments must be submitted separately and should cite 5 U.S.C. 601, et seq. (GSAR Case 2006–G501), in all correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act (Pub. L. 104–13) applies because the proposed rule contains information collection.
