

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (Operating/Maintaining Systems or Purchasing Services): \$125,000.

Description: This application form is used by non-profit, tax-exempt organizations (primarily museums), individuals and governmental units to apply to the Federal Council on the Arts and the Humanities (through the National Endowment for the Arts) for indemnification of eligible works of art and artifacts, borrowed from public and private collections in the United States for exhibition in the United States. The indemnity agreement is backed by the full faith and credit of the United States. In the event of loss or damage to an indemnified object, the Federal Council certifies the validity of the claim and requests payment from Congress. 20 U.S.C. 973 *et seq.* requires such an application and specifies information which must be supplied. This statutory requirement is implemented by regulation at 45 CFR 1160.4.

Kathleen Edwards,

Director, Administrative Services.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review;
Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 73 FR 14276, and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of

information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or via e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: Monitoring for the National Science Foundation's Math and Science Partnership (MSP) Program.

OMB Control No.: 3145-0199.

Expiration Date of Approval:
September 30, 2008.

1. Abstract

This document has been prepared to support the clearance of data collection instruments to be used in the evaluation of the Math and Science Partnership (MSP) program. The goals for the program are to (1) ensure that all K-12 students have access to, are prepared for, and are encouraged to participate and succeed in challenging curricula and advanced mathematics and science courses; (2) enhance the quality, quantity, and diversity of the K-12 mathematics and science teacher workforce; and (3) develop evidence-based outcomes that contribute to our understanding of how students effectively learn mathematics and science. The motivational force for realizing these goals is the formation of partnerships between institutions of higher education (IHEs) and K-12 school districts. The role of IHE content faculty is the cornerstone of this intervention. In fact, it is the rigorous involvement of science, mathematics, and engineering faculty—and the expectation that both IHEs and K-12 school systems will be transformed—that distinguishes MSP from other education reform efforts.

The components of the overall MSP portfolio include active projects whose

initial awards were made prior to MSP competitions: (1) Comprehensive Partnerships that implement change in mathematics and/or science educational practices in both higher education institutions and in schools and school districts, resulting in improved student achievement across the K-12 continuum; (2) Targeted Partnerships that focus on improved K-12 student achievement in a narrower grade range or disciplinary focus within mathematics or science; (3) Institute Partnerships: Teacher Institutes for the 21st Century that focus on the development of mathematics and science teachers as school- and district-based intellectual leaders and master teachers; and (4) Research, Evaluation and Technical Assistance (RETA) projects that build and enhance large-scale research and evaluation capacity for all MSP awardees and provide them with tools and assistance in the implementation and evaluation of their work.

The MSP monitoring information system, comprised of eight Web-based surveys and one paper survey, collects a common core of data about each component of MSP. The Web application for MSP has been developed with a modular design that incorporates templates and self-contained code modules for rapid development and ease of modification. A downloadable version will also be available for respondents who prefer a paper version that they can mail or fax to the external contractor.

Use of the information: This information is required for effective program planning, administration, communication, program and project monitoring and evaluation, and for measuring attainment of NSF's program, project and strategic goals, as required by the President's Management agenda as represented by the Office of Management and Budget's (OMB's) Program Assessment Rating Tool (PART); the Deficit Reduction Act of 2005 (Pub. L. 109-171) which established the Academic Competitiveness (ACC) and the NSF's Strategic Plan. The Foundation's FY 2006-2011 Strategic Plan describes four strategic outcome goals of Discovery, Learning, Research Infrastructure, and Stewardship. NSF's complete strategic plan may be found at: http://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf0648.

2. Expected Respondents

Individuals or households, not-for-profit institutions, business or other for profit, and Federal, State, local or tribal government. The expected respondents
