**SUPPLEMENTARY INFORMATION:** The U.S. Nuclear Regulatory Commission (NRC) is issuing a new regulatory guide, RG 4.21, "Minimization of Contamination and Radioactive Waste Generation: Life-Cycle Planning." The NRC's regulatory guides describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

This guide describes a method that the staff of the NRC considers acceptable for use in implementation of Title 10 of the Code of Federal Regulations, Section 20.1406 (10 CFR

20.1406), "Minimization of Contamination." Section 20.1406 requires applicants for licenses, design certification, approval of standard designs, and manufacturing licenses under 10 CFR Part 52, "Early Site Permits; Standard Design Certifications; and Combined Licenses for Nuclear Power Plants," to submit information with regard to design and operational procedures for (1) minimizing radioactive waste generation, contamination of the facility and the environment, and (2) facilitating decommissioning.

In July 2007, the NRC published a draft of this guide as DG-4012. The public comment period closed on November 1, 2007. The staff's responses to the public comments are located in the NRC's Agencywide Documents Access and Management System (ADAMS), Accession Number ML080700256.

Electronic copies of RG 4.21 are available through the NRC's public Web site under "Regulatory Guides" at <http://www.nrc.gov/reading-rm/doc-collections/>.

**SUPPLEMENTARY INFORMATION:** On June 2, 2008, the Postal Service filed three notices, which have been assigned to Docket Nos. CP2008-8, CP2008-9 and CP2008-10, announcing prices and classification changes for competitive products not of general applicability. The notice in Docket No. CP2008-8 informs the Commission that "the Governors have established prices and classifications for competitive products not of general applicability for Global Plus Contracts."<sup>1</sup> The Postal Service attached a revision of the draft Mail Classification Schedule (MCS) (section 2610.5) concerning Global Plus contracts to the Notice.<sup>2</sup> Docket No. CP2008-8 has been filed pursuant to 39 U.S.C. 3632(b)(3) and 39 CFR 3015.5 and 3020.90. In support of this docket, the Postal Service has also filed materials under seal, including the Governors' decision. The Postal Service claims that "[c]ontract prices are highly confidential in the business world \* \* \* [and that its] ability \* \* \* to negotiate individual contracts would be severely compromised if prices for these types of agreements were publicly disclosed." Notice at 1-2.

The notices in Docket Nos. CP2008-9 and CP2008-10 announce individual negotiated service agreements, namely, specific Global Plus contracts that the Postal Service has entered into with individual mailers.<sup>3</sup> In support of these dockets, the Postal Service has also filed materials, including the contracts and

<sup>1</sup> Notice of United States Postal Service of Governors' Decision Establishing Prices and Classifications for Global Plus Contracts, June 2, 2008, at 1 (Notice).

<sup>2</sup> The draft MCS remains under review. The Commission anticipates providing interested persons an opportunity to comment on the draft MCS in the near future. Modifications to the MCS, such as proposed in Docket No. CP2008-8, should, in the future, be filed in the dockets designated by the "MC" prefix. Contracts executed pursuant to those requested classifications are appropriately filed as "CP" dockets.
