ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-ORD-2003-0002; FRL-8579-7]

Notice of Availability for the Framework for Application of the Toxicity Equivalence Methodology for Polychlorinated Dioxins, Furans, and Biphenyls in Ecological Risk Assessment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of document availability.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing the availability of the final "Framework for Application of the Toxicity Equivalence Methodology for Polychlorinated Dioxins, Furans, and Biphenyls in Ecological Risk Assessment" (EPA/100/R-08/004). The purpose of the Framework is to assist EPA scientists in using the toxicity equivalence methodology to assess ecological risks from mixtures of dioxin-like chemicals, i.e., polychlorinated dibenzo-p-dioxins (PCDDs), dibenzofurans (PCDFs), and biphenyls (PCBs), as well as to inform EPA decision makers, other agencies, and the public about this methodology. This framework provides an introduction to the toxicity equivalence methodology, offers considerations for how and when to apply the methodology, and presents practical examples of its use. The Framework thus serves to enhance the application of the best available science. This document is not intended to serve as guidance on how to conduct a comprehensive risk assessment for dioxin-like chemicals or to act as a regulation or binding policy. EPA's Risk Assessment Forum oversaw the development of this document, incorporating input obtained from an expert workshop, scientists throughout the Agency, stakeholders, and a peer review by twelve experts from a range of scientific disciplines.

ADDRESSES: The final document is available electronically through the EPA Office of the Science Advisor's Web site at: <http://www.epa.gov/osa/raf/>

tefframework/. A limited number of paper copies will be available from EPA's National Service Center for Environmental Publications (NSCEP), P.O. Box 42419, Cincinnati, OH 45242; telephone 1-800-490-9198 or 513-489-8190; facsimile 301-604-3408; e-mail NSCEP@bpa-imit.com. Please provide your name and mailing addresses and the title and EPA number (as given above) of the requested publication.

SUPPLEMENTARY INFORMATION: For more than a decade, EPA and other organizations have estimated the combined risks that mixtures of PCDDs, PCDFs, and PCBs pose to human health using the toxicity equivalence methodology. As both data and experience with the methodology have accumulated, experts have come to the consensus that the toxicity equivalence methodology can strengthen assessments of ecological risks as well. In 1998, EPA and DOI sponsored a workshop that recommended the development of further guidance on application of the toxicity equivalence methodology in ecological risk assessment. This framework has been developed in direct response to that workshop recommendation. EPA consulted with other federal agencies at key points during the document's development. In July 2003, EPA released a draft Framework for a 60-day public comment period. An external peer review was conducted in 2004 by twelve experts from a range of scientific disciplines.

Dated: May 15, 2008.

EPA Science Advisor.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On November 19, 2007, the Commission released the *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, Report and Order and Declaratory Ruling (*2007 TRS Cost Recovery Order*), CG Docket No. 03-123, FCC 07-186, adopting (1) A new cost recovery methodology for interstate traditional Telecommunications Relay Services (TRS) and interstate Speech-to-Speech (STS) based on the Multi-state Average Rate Structure (MARS) plan proposed by Hamilton Relay, Inc., (2) a new cost recovery methodology for interstate captioned telephone service (CTS) and interstate and intrastate

Internet-Protocol (IP) Captioned Telephone Service (IP CTS) based on the MARS plan, (3) a cost recovery methodology for IP Relay based on price caps, and (4) a cost recovery methodology for Video Relay Services (VRS) that adopts tiered rates based on call volume. The *2007 TRS Cost Recovery Order* also clarifies the nature and extent that certain categories of costs are compensable from the Interstate TRS Fund (Fund), and addresses certain issues concerning the management and oversight of the Fund, including financial incentives offered to consumers to make relay calls and the role of the Interstate TRS Fund Advisory Council.

The *2007 TRS Cost Recovery Order* establishes reporting requirements associated with the MARS plan cost recovery methodology for compensation from the Fund. Specifically, TRS providers must submit to the Fund administrator the following information annually, on a per-state basis, regarding the previous calendar year: (1) The per-minute compensation rate(s) for intrastate traditional TRS, STS and CTS, (2) whether the rate applies to session minutes or conversation minutes, (3) the number of intrastate session minutes for traditional TRS, STS and CTS, and (4) the number of intrastate conversation minutes for traditional TRS, STS, and CTS. Also, STS providers must file a report annually with the Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

In the *2007 TRS Cost Recovery Order*, the Commission has assessed the effects of imposing the submission of rate data, and has found that there is no increased administrative burden on businesses with fewer than 25 employees. The Commission recognizes that the required rate data is presently available with the states and the providers of interstate traditional TRS, interstate STS, and interstate CTS, thereby no additional step is required to produce such data. The Commission therefore believes that the submission of the rate data does not increase an administrative burden on businesses.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
