J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

Executive Order (EO) 12898 (59 FR 7629 (Feb. 16, 1994)) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

EPA has determined that this proposed rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. This action updates a regulatory reference to an obsolete standard to avoid confusion on the part of refrigerant handling equipment manufacturers, service technicians, automobile dismantling operators, and A/C service shop owners.

II. Background

A. What Action is the Agency Taking?

EPA's Office of Pesticide Programs (OPP) has developed a commodity vocabulary data base entitled "Food and Feed Commodity Vocabulary." The data base was developed to consolidate all the major OPP commodity vocabularies into one standardized vocabulary. As a result, all future pesticide tolerances issued under 40 CFR part 180 will use the "preferred commodity term" as listed in the aforementioned data base. Previously, seven documents in a series of documents revising the terminology of commodity terms currently in tolerances in 40 CFR part 180 have been published. Final Rules, revising pesticide tolerance nomenclature, were published in the **Federal Register** on June 19, 2002 (67 FR 41802) (FRL-6835-2); June 21, 2002 (67 FR 42392) (FRL-7180-1); July 1, 2003 (68 FR 39428) (FRL-7308-9) and (68 FR 39435) (FRL-7316-9); December 13, 2006 (71 FR 74802) (FRL-8064-3); and September 18, 2007 (72 FR 53134) (FRL-8126-5); corrected on October 31, 2007 (72 FR 61535) (FRL-8151-4).

This document proposes changes to certain commodity terminology in 40 CFR part 180. EPA is proposing to make the following format changes to the terminology of the commodity terms in 40 CFR part 180 to the extent the terminology is not already in this format:

1. The first letter of the commodity term is capitalized. All other letters, including the first letter of proper names, are changed to lower case.
2. Commodity terms are listed in the singular, although there are the following exceptions: leaves, roots, tops, greens, hulls, vines, fractions, shoots, and byproducts.
3. Commodity terms are amended so that generic terms precede modifying terms. Example - Aspirated grain fractions would be replaced with Grain, aspirated fractions.
4. Abbreviated terms would be replaced with the appropriate commodity terms. Example - Cattle, mbypr would be replaced with Cattle, meat byproducts.
5. Crop group terms would be revised to standardize with the "Food and Feed Vocabulary". Examples are:
 - Vegetable, leafy greens, except Brassica, group 4 would be replaced

with Vegetable, leafy, except brassica, group 4.

- Legume vegetables, succulent or dried (except soybean) would be replaced with Vegetable, legume, group 6, except soybean.

- Vegetable, legume, edible podded, subgroup would be replaced with Vegetable, legume, edible podded, subgroup 6A.

B. Additional Changes

In addition to format changes to the commodity terms, this document also proposes many revisions to the commodity terms in 40 CFR part 180, subpart C. These proposed revisions, if adopted, would replace certain commodity terms that are no longer used by EPA with the appropriate matching term in the "Food and Feed Vocabulary." For example:

1. Carrot would be replaced with Carrot, roots.
2. Cotton, oil and Peanut oil would be replaced with Cotton, refined oil and Peanut, refined oil.
3. Cacao and Cacao bean would be replaced with Cacao bean, bean.
4. Coffee and Coffee, bean would be replaced with Coffee, bean, green.
5. Coffee, postharvest would be replaced with Coffee, bean, roasted bean, postharvest.
6. Citron would be replaced with Citron, citrus.
7. Corn, field, grain, flour would be replaced with Corn, field, flour.
8. Date would be replaced with Date, dried fruit.
9. Grass, fodder would be replaced with Grass, straw.
10. Guar bean would be replaced with Guar, seed.
11. Hop would be replaced with Hop, dried cones.
12. Millet, fodder would be replaced with Millet, straw. Milo, grain; Milo, fodder; and Milo, forage would be replaced with Sorghum, grain, grain; Sorghum, grain, stover; and Sorghum, grain, forage.
13. Mulberry, Indian would be replaced with Noni.
14. Oat milling fractions (except flour) and Oat, milled fractions (except flour) would be replaced with Oat, groats/rolled oats.
15. Pea, vines would be replaced with Pea, field, vines.
16. Peavine, hay would be replaced with Pea, field, hay.
17. Prickly pear cactus, fruit and Prickly pear cactus, pads would be replaced with Cactus, fruit and Cactus, pads.
18. Red beet roots and Red beet tops would be replaced with Beet, garden, roots and Beet, garden tops.

19. Soybean, aspirated grain fractions would be replaced with Grain, aspirated fractions.

20. Wheat, grain, milled byproducts and Wheat, milled feed fractions would be replaced with Wheat, milled byproducts.

In certain instances, more than one replacement commodity term exists in the "Food and Feed Vocabulary for the older commodity terms in 40 CFR part 180, subpart C. For example, the preferred commodity terms for Grass are Grass, forage and Grass, hay. Certain revisions included in this document were made by choosing a replacement commodity term from the "Food and Feed Vocabulary" based on the old commodity term and existing tolerances for related food or feed commodities. These changes are specific to the amended sections and paragraphs in 40 CFR part 180, subpart C. For example:

In § 180.154(a) and § 180.169(a)(1) the commodity term Alfalfa would be replaced with Alfalfa, forage. Alfalfa, forage and Alfalfa, hay are preferred commodity terms for Alfalfa. Alfalfa, forage was chosen to replace Alfalfa since tolerances are established for Alfalfa, hay.

In § 180.121(e) Beet (with or without tops) would be replaced with Beet, garden roots. Beet, garden, roots and Beet, garden, tops are the preferred commodity terms for Beet (with or without tops). Beet, garden roots was chosen since a tolerance is established for Beet, garden, tops. In § 180.408(a) Beet, garden would be replaced with Beet, garden, roots. A tolerance is established for Beet, garden, tops.

In § 180.154(a) Birdsfoot trefoil would be replaced with Trefoil, forage. Trefoil, forage and Trefoil, hay are the preferred commodity terms for Birdsfoot trefoil. Trefoil forage was chosen since a tolerance is established for Trefoil, hay.

In § 180.154(a) and § 180.169(a)(1) Clover would be replaced with Clover, forage. Clover, forage and Clover, hay are preferred commodity terms for Clover. Clover, forage was chosen since tolerances are established for Clover, hay.

In § 180.121(a), § 180.204(a) and § 180.288(a), the commodity term Corn, forage would be replaced with Corn, field, forage. Corn, field, forage and Corn, sweet, forage are the preferred commodity terms for Corn, forage. Since there are no tolerances for sweet corn; Corn, field, forage was chosen to replace Corn, forage. In § 180.412(a) the commodity term Corn, field, forage was chosen to replace Corn, forage since a tolerance is established for Corn, sweet, forage.

In § 180.111(a)(1) and § 180.169(a)(1) the commodity term Grass would be replaced with Grass, forage. The preferred terms for Grass are Grass, forage and Grass, hay. Grass, forage was chosen since tolerances are established for Grass, hay.

In § 180.121(e) Rutabagas (with or without tops) would be replaced with Rutabaga, roots. Rutabaga, roots and Rutabaga, tops are the preferred terms for Rutabagas (with or without tops). Rutabaga, roots was chosen since a tolerance is established for Rutabaga tops.

In § 180.342(a)(2) Turnip would be replaced with Turnip, roots. The preferred terms for Turnip are Turnip, roots and Turnip, greens. Turnip, roots was chosen since tolerances are established for Turnip, greens. In § 180.121(e) Turnip (with or without tops) would be replaced with Turnip, roots since a tolerance is established for Turnip, greens.

This document also proposes to delete certain terms that are not needed to identify the tolerance commodities. Examples:

1. The term Peanut, meat (hulls removed) would be changed to Peanut.
2. The term Banana, pulp (no peel) would be changed to Banana, pulp.
3. The commodity term Peach (includes nectarines) would be changed to Peach; the "Food and Feed Vocabulary" uses the term Peach to include peach and nectarines.
4. The terms Horseradish, roots and Potato, tuber would be changed to Horseradish and Potato.
5. The terms Garlic, bulb and Garlic (bulb) would be changed to Garlic.
6. The terms Plum (fresh) and Pineapple, fresh would be changed to Plum and Pineapple.

III. Statutory and Executive Order Reviews

This document proposes technical amendments to the Code of Federal Regulations which have no substantive impact on the underlying regulations, and does not otherwise impose or amend any requirements. As such, the Office of Management and Budget (OMB) has determined that a technical amendment is not a "significant regulatory action" subject to review by OMB under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this proposed rule has been exempted from review under Executive Order 12866 due to its lack of significance, this proposed rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply,*

Distribution, or Use (66 FR 28355, May 22, 2001). This proposed rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). The Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute unless the agency certifies that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental organizations. After considering the economic impacts of today's proposed rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This action proposes technical amendments to the Code of Federal Regulations which have no substantive impact on the underlying regulations. These technical amendments will not have any negative economic impact on any entities, including small entities. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that

have federalism implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This proposed rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of the FFDCFA. For these same reasons, the Agency has determined that this proposed rule does not have any “tribal implications” as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable

process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This proposed rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this proposed rule.
