Proposed Project

Title: Communities Empowering
Youth Evaluation Study.

OMB No. New Collection.
Description: The information
collection activity proposed under this
notice will obtain information about
lead and partner organizations funded
under the Communities Empowering
Youth (CEY) program. The information
collected will complement a survey
(OMB No. 0970-0335) that is examining
the organizational and partnership
capacity building experienced by
organizations funded under the CEY
program. The proposed information
collection will allow in-depth
examination of a select number of lead
organizations and their partners.
Information collection will be through
on-site observations of organizations
and partnerships and structured
discussions with key staff, using
uniform protocols. Pilot testing will be
conducted at two sites to ensure that the
protocols and observations are valid and

reliable. On-site information collection
will occur three times: near the
beginning, at the mid-point, and at the
end of the three-year CEY grant period.
Periodic telephone follow-ups,
occurring approximately every six
months, will be conducted between on-
site data collection in order to clarify or
update information collected earlier and
to prepare for future site visits.

Respondents: Executive directors and
key staff of faith based and community
organizations that received three-year
CEY grants beginning in 2007.

ANNUAL BURDEN ESTIMATES

Instrument	Number of re- spondents	Number of re- sponses per respondent	Average bur- den hours per response	Total burden hours
Lead Organization Executive Director	10	1	3.5	35
Lead Organization Key Staff	20	1	2.5	50
Partner Organization Executive Director	60	1	3.5	210
Partner Organization 2 Key Staff	60	1	2.5	150
Estimated Total Annual Burden Hours				445

Additional Information:

Copies of the proposed collection may
be obtained by writing to the
Administration for Children and
Families, Office of Planning, Research
and Evaluation, 370 L'Enfant
Promenade, SW., Washington, DC
20447, Attn: ACF Reports Clearance
Officer. E-mail address:
OPREInfoCollection@hhs.gov. All
requests should be identified by the title
of the information collection.

OMB Comment:

OMB is required to make a decision
concerning the collection of information
between 30 and 60 days after
publication of this document in the
Federal Register. Therefore, a comment
is best assured of having its full effect
if OMB receives it within 30 days of
publication. Written comments and
recommendations for the proposed
information collection should be sent
directly to the following:

Proposed Projects

Title: Continued Tracking of Families
in the Head Start Impact Study.

OMB No.: 0970-0229.
Description: The Administration for
Children and Families (ACF) of the
Department of Health and Human
Services (HHS) plans to collect follow-
up information from children and
families in the Head Start Impact Study
(OMB No. 0970-0229). In anticipation
of the possibility of conducting an 8th
grade follow-up for this study, this effort
will collect information necessary to
identify respondents' current location,
as well as other basic information about

the parents' whereabouts and future
contacts, should the follow-up study be
continued.

The Head Start Impact Study is a
longitudinal study involving
approximately 5,000 first time enrolled
three- and four-year old preschool
children across 84 nationally
representative grantee/delegate agencies
(in communities where there were more
eligible children and families than can
be served by the program.) Participating
children were randomly assigned to
either a Head Start group (that could
enroll in Head Start services) or a
control group (that could not enroll in
Head Start services but could enroll in
other available services selected by their
parents). Data collection for the study
began in fall of 2002 and extended
through spring 2008, through the
children's 3rd grade year.

It is the intention of the
Administration for Children and
Families to continue to examine
outcomes for this sample of children
and families through the spring of the
child's 8th grade year. In order to ensure
that participants can be located for that
future study, location and contact
information will be collected from

parents or guardians in the spring of 2009, 2010, and 2012. A small set of additional items will provide information on the parents' perception

of the children's well-being. The tracking updates will primarily be conducted over the telephone with in-person follow-up as necessary.

Respondents: Treatment and control group members in the Head Start Impact Study.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Tracking Interview	4,667	1	.25	1,166.75
Estimated Total Annual Burden Hours				1,166.75

Additional Information:

Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade, SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. E-mail address: OPREInfoCollection@acf.hhs.gov. All requests should be identified by the title of the information collection.

OMB Comment:

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

Written comments and recommendations for the proposed information collection should be sent directly to the following:

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Project

Title: Early Head Start Family and Child Experiences Survey (Baby FACES).

OMB No. New Collection

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is conducting a descriptive study of Early Head Start Programs (Early Head Start Family and Child Experiences Survey, or Baby FACES). Baby FACES is a longitudinal study of a nationally representative sample of programs and children in two cohorts (perinatal and age 1) that will collect information about programs, services, families, and children. Data for Baby FACES will be annually collected through interviews with parents, teachers, home visitors, and program directors/managers, as well as direct child assessments, videotaped parent child interactions, and observations of the home environment when children

are two and three years old. Data collection will also include quality observations of child care center classrooms and home visits conducted by program staff.

Data will be collected on a sample of approximately 2,000 children and families selected at random from 90 Early Head Start programs. Over the life of the project, Baby FACES will involve four waves of data collection, ending when the second cohort of children (perinatal cohort) reaches 36 months of age. This information collection request covers the first three years of data collection. All waves of data collection will acquire program level information through an hour-long program director interview. Additionally, staff from all programs will complete a simple service tracking form every week for each child in the sample for all years to determine what services are being delivered to families.

Respondents: Parents of EHS Children, EHS Children, EHS Teachers, Home Visitors, and Program Directors/Managers.

ANNUAL BURDEN ESTIMATES

Instrument	Annual number of respondents	Number of responses per respondent	Average burden hour per response	Estimated annual burden hours
Parent Interview	1,715	1	1	1,715
Program Director/Manager Interview	90	1	1	90
Child Care Provider Interview	180	1	1	180
Home Visitor Interview	270	1	1	270
Teacher/Home Visitor Child Rating	450	2.6	0.25	293
Family Service Tracking	450	136	0.1666	10,200
Child Direct Assessment	907	1	1	907
Parent-Child Interaction	907	1	0.25	227
Total Burden Hours				12,975
