III. What Information Collection Activity or ICR Does this Action Apply to?

Affected entities: Entities potentially affected by this action are companies that formulate end-use, for-sale chemical products.

Title: Reporting Requirements Under EPA's Design for the Environment (DfE) Formulator Product Recognition Program.

ICR numbers: EPA ICR No. 2302.01, OMB Control No. 2070–new.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA's DfE Formulator Product Recognition Program formally recognizes safer products where all ingredients have an environmental and human health profile showing that they are the safest in their functional use class. Under the encouragement of this program, leading companies have made great progress in developing safer, highly effective chemical products. Since the program's inception in 1997, formulators have used the program as a portal to OPPT's unique chemical expertise, information resources, and guidance on greener chemistry. DfE Formulator partners enjoy Agency recognition, including the use of the DfE logo on products with the safest possible formulations. In the future, EPA expects much greater program participation due to rising demand for safer products. This information collection enables EPA to accommodate participation by more than nine formulators each year and to enhance program transparency.

Information collection activities associated with this program will assist the Agency in meeting the goals of the Pollution Prevention Act (PPA) by providing resources and recognition for

businesses committed to promoting and using safer chemical products. In turn, the program will help businesses meet corporate sustainability goals by providing the means to, and an objective measure of, environmental stewardship. Investment analysts and advisers seek these types of measures in evaluating a corporation's sustainability profile and investment worthiness. Formulator Program partnership is an important impetus for prioritizing and completing the transition to safer chemical products. The Formulator Program is also needed to promote greater use of safer chemical products by companies unaware of the benefits of such a change.

EPA has tailored its request for information, and especially the Formulator Product Recognition Program application forms, to ensure that the Agency requests only that information essential to verify applicants' eligibility for recognition.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to range between 12 and 15 hours per response, depending upon the type of product the respondent manufactures. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 32.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 658 hours.

Estimated total annual costs: \$431,166. This includes an estimated burden cost of \$431,166 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

IV. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On January 23, 2008, (73 FR 3956), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments during the comment period. Any comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under Docket ID No. EPA-HQ-OW-2003-0078, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The EPA/DC Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is 202-566-1744, and the telephone number for the Water Docket is 202-566-2426.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential

Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: National Wastewater Operator Training and Technical Assistance Program (Renewal).

ICR Numbers: EPA ICR No. 1977.03, OMB Control No. 2040-0238.

ICR Status: This ICR expires on June 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Wastewater Operator Training Program, section 104(g)(1) of the Clean Water Act, provides on-site technical assistance to municipal wastewater treatment plants. Information will be collected from the network of forty-six states or the 104(g)(1) training centers set up throughout the United States. The information will be collected to identify the facilities assisted, the different types of assistance the program provides and the environmental outcomes and benefits of the assistance provided by the program. The information will be collected and submitted on either an annual or semi-annual basis. A Microsoft Access database and an Excel spreadsheet have been developed for this purpose. This ICR will be used by EPA for the technical and financial management of the 104(g)(1) Program. The 104(g)(1) Program training centers participate in the information collection in compliance with the grant conditions. All information in the data system will be made public upon request.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.333 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States and training centers.

Estimated Number of Respondents: 46.

Frequency of Response: Three times a year.

Estimated Total Annual Hour Burden: 322 hours.

Estimated Total Annual Cost: \$14,361, which is entirely for labor. There are no annualized capital or O&M costs.

Changes in the Estimates: There is no change in the total estimated respondent burden hours compared with that identified in the ICR currently approved by OMB. EPA has not modified the requirements that were included in the previous ICR.

Dated: June 4, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.
