Title: National Wastewater Operator Training and Technical Assistance Program (Renewal).

ICR Numbers: EPA ICR No. 1977.03, OMB Control No. 2040-0238.

ICR Status: This ICR expires on June 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Wastewater Operator Training Program, section 104(g)(1) of the Clean Water Act, provides on-site technical assistance to municipal wastewater treatment plants. Information will be collected from the network of forty-six states or the 104(g)(1) training centers set up throughout the United States. The information will be collected to identify the facilities assisted, the different types of assistance the program provides and the environmental outcomes and benefits of the assistance provided by the program. The information will be collected and submitted on either an annual or semi-annual basis. A Microsoft Access database and an Excel spreadsheet have been developed for this purpose. This ICR will be used by EPA for the technical and financial management of the 104(g)(1) Program. The 104(g)(1) Program training centers participate in the information collection in compliance with the grant conditions. All information in the data system will be made public upon request.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2.333 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize

technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States and training centers.

Estimated Number of Respondents: 46.

Frequency of Response: Three times a year.

Estimated Total Annual Hour Burden: 322 hours.

Estimated Total Annual Cost: \$14,361, which is entirely for labor. There are no annualized capital or O&M costs.

Changes in the Estimates: There is no change in the total estimated respondent burden hours compared with that identified in the ICR currently approved by OMB. EPA has not modified the requirements that were included in the previous ICR.

Dated: June 4, 2008.

Title: Clean Water Act State Revolving Fund Program (Renewal).

ICR numbers: EPA ICR No. 1391.08, OMB Control No. 2040-0118.

ICR Status: This ICR is scheduled to expire on June 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. Abstract: The Clean Water Act, as amended by "The Water Quality Act of 1987" (U.S.C. 1381-1387 et seq.), created a Title VI which authorizes grants to States for the establishment of State Water Pollution Control Revolving Funds (SRFs). The information collection activities will occur primarily at the program level through the State "Intended Use Plan" and "Annual Report". The information is needed annually to implement Section 606 of the Clean Water Act (CWA).

The 1987 Act declares that water pollution control revolving funds shall be administered by an instrumentality of the State subject to the requirements of the Act. This means that each State has a general responsibility for administering its revolving fund and must take on certain specific responsibilities in carrying out its administrative duties. The information collection activities will occur primarily at the program level through the State Intended Use Plan and Annual Report. The information is needed annually to implement section 606 of the Clean Water Act (CWA). The Act requires the

information to ensure national accountability, adequate public comment and review, fiscal integrity and consistent management directed to achieve environmental benefits and results. The individual information collections are: (1) Capitalization Grant Application and Agreement/State Intended Use Plan, (2) State Annual Report, (3) State Annual Audit, and (4) Application for SRF Financial Assistance.

(1) Capitalization Grant Application and Agreement/State Intended Use Plan: The State will prepare a Capitalization Grant application that includes an Intended Use Plan (IUP) outlining in detail how it will use all the funds available to the fund. The grant agreement contains or incorporates by reference the IUP, application materials, payment schedule, and required assurances. The bulk of the information is provided in the IUP, the legal agreement which commits the State and EPA to execute their responsibilities under the Act.

(2) State Annual Report: The State must agree to complete and submit a State Annual Report that indicates how the State has met the goals and objectives of the previous fiscal year as stated in the IUP and grant agreement. The report provides information on loan recipients, loan amounts, loan terms, project categories, and similar data on other forms of assistance. The report describes the extent to which the existing SRF financial operating policies, alone or in combination with other State financial assistance programs, will provide for the long term fiscal health of the Fund and carry out other provisions specified in the grant operating agreement.

(3) State Annual Audit: Most States have agreed to conduct or have conducted a separate financial audit of the Capitalization Grant which will provide opinions on the financial statements, and a report on the internal controls and compliance with program requirements. The remaining States will be covered by audits conducted under the requirements of the Single Audit Act and by EPA's Office of Inspector General.

(4) Application for SRF Financial Assistance: Local communities and other eligible entities have to prepare and submit applications for SRF assistance to their respective State Agency which manages the SRF program. The State reviews the completed loan applications, and verifies that the proposed projects will comply with applicable Federal and State requirements.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 108.73 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State and Local governments; local communities and tribes.

Estimated Number of Respondents: 3,825.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 415,905.

Estimated Total Annual Cost: \$11,118,000 in labor costs and \$0 for both annualized capital costs and O&M costs.

Changes in the Estimates: There is an increase of 76,500 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase reflects EPA's acceptance of additional loan applicants for the State SRF loan program. The increase in burden hours is the time needed to process and report on these loans on an annual basis.

Dated: June 4, 2008.
