**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Census Bureau conducts the annual Company Organization Survey (COS) to update and maintain a central, multipurpose Business Register (BR). In particular, the COS supplies critical information on the composition, organizational structure, and operating characteristics of multi-location companies.

*The BR Serves Two Fundamental Purposes*

—First and most importantly, it provides sampling populations and enumeration lists for the Census Bureau's economic surveys and censuses, and it serves as an integral part of the statistical foundation underlying those programs. Essential for this purpose is the BR's ability to identify all known United States business establishments and their parent companies. Further, the BR must accurately record basic business attributes needed to control sampling and enumeration. These attributes include industrial and geographic classifications, and name and address information.

—Second, it provides establishment data that serve as the basis for the annual County Business Patterns (CBP) statistical series. The CBP reports present data on number of establishments, first quarter payroll, annual payroll, and mid-March employment summarized by industry and employment size class for the United States, the District of Columbia, Puerto Rico, counties, and county-equivalents. No other annual or more frequent series of industry statistics provides comparable detail, particularly for small geographic areas.

**II. Method of Collection**

The Census Bureau will conduct the 2008 COS in a similar manner as the 2006 COS. (In 2007 the COS was conducted in conjunction with the 2007 Economic Census to minimize response burden). These collections will direct inquiries to approximately 43,000 multi-establishment companies, which operate over 1.2 million establishments. This panel will be drawn from the BR universe of nearly 200,000 multi-establishment companies, which operate 1.6 million establishments. Additionally, the panel will include approximately 5,000 large single-establishment companies that may have added locations during the year.

The mailing list for the 2008 COS will include a certainty component, consisting of all multi-establishment companies with 250 or more employees, and those multi-establishment companies with administrative record values that indicate organizational changes. A non-certainty component will be drawn from the remaining multi-establishment companies based on employment size. The mailing list also will include entities that are most likely to have added establishments at other locations.

The primary collection medium for the COS is a paper questionnaire; however, many enterprises will submit automated/electronic COS reports. For 2008, electronic reporting will be available to all COS respondents. Companies will receive and return responses by secure Internet transmission. Companies that cannot use the Internet will receive a CD-ROM containing their electronic data. All respondents will be allowed to mail the data via diskette or CD-ROM or submit their response data via the Internet. COS data is identical for all of the reporting modes.

The instrument will include inquiries on ownership or control by domestic or foreign parents, ownership of foreign affiliates, and leased employment. Further, the instrument will list an inventory of establishments belonging to the company and its subsidiaries, and request updates to these inventories, including additions, deletions, and changes to information on Employer Identification Number, name and address, and industrial classification, end-of-year operating status, mid-March employment, first quarter payroll, and annual payroll.

Additionally, the Census Bureau will ask certain questions in the 2008 COS in order to enhance content. We will include questions on leased employees working in the company, questions on

research and development activities performed by the company, and questions on new or significantly improved methods of manufacturing, producing, delivering or distributing goods or services within the company.
