International Trade Administration

[A-570-930]

Notice of Postponement of Preliminary Determination in the Antidumping Duty Investigation of Circular Welded Austenitic Stainless Pressure Pipe from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 24, 2008.

FOR FURTHER INFORMATION CONTACT: Melissa Blackledge or Howard Smith, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC, 20230; telephone: (202) 482-3518 or (202) 482-5193, respectively.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determination

On February 19, 2008, the Department of Commerce (the "Department") initiated the antidumping duty investigation of circular welded austenitic stainless pressure pipe from the People's Republic of China. See *Circular Welded Austenitic Stainless Pressure Pipe from the People's Republic of China: Initiation of Antidumping Duty Investigation*, 73 FR 10221 (February 26, 2008) ("*Initiation Notice*"). The *Initiation Notice* stated that, unless postponed, the Department would make its preliminary determination for this antidumping duty investigation no later than 140 days after the date of initiation. Id. at 10224.

On June 10, 2008, the petitioners¹ made a timely request pursuant to 19

CFR 351.205(e) for a 50-day postponement of the preliminary determination in this investigation. The petitioners requested postponement of the preliminary determination because of the "number of input factors, the complexity of the transactions to be investigated, and the difficulty in obtaining certain surrogate values."

There are no compelling reasons to deny the petitioners' request. Therefore, the Department is postponing this preliminary determination under section 733(c)(1)(A) of the Tariff Act of 1930, as amended (the "Act") by 50 days from July 8, 2008 to August 27, 2008. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to sections 733(c)(2) and 777(i)(1) of the Act and 19 CFR 351.205(f)(1).

Dated: June 18, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

RIN 0648-XI48

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Applications for one new scientific research permit and one permit modification.

SUMMARY: Notice is hereby given that NMFS has received two scientific research permit application requests relating to Pacific salmon. The proposed research is intended to increase knowledge of species listed under the Endangered Species Act (ESA) and to help guide management and conservation efforts.

DATES: Comments or requests for a public hearing on the applications must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific standard time on July 24, 2008.

ADDRESSES: Written comments on the applications should be sent to the

Protected Resources Division, NMFS, 1201 NE Lloyd Blvd., Suite 1100, Portland, OR 97232-1274. Comments may also be sent via fax to 503-230-5441 or by e-mail to resapps.nwr@NOAA.gov.

FOR FURTHER INFORMATION CONTACT:

Blane Bellerud, Portland, OR (ph.: 503-231-2338, Fax: 503-231-2318, e-mail: Blane.Bellerud@noaa.gov). Permit application instructions are available from the address above.

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following listed species are covered in this notice:

Chinook salmon (*Oncorhynchus tshawytscha*): threatened lower Columbia River (LCR), threatened upper Willamette River (UWR), endangered upper Columbia River (UCR), threatened Snake River (SR) spring/summer (spr/sum), threatened SR fall.

Chum salmon (*O. keta*): threatened Columbia River (CR).

Steelhead (*O. mykiss*): threatened LCR, threatened UWR, threatened middle Columbia River (MCR), threatened SR, endangered UCR, threatened PS.

Coho salmon (*O. kisutch*): threatened LCR, threatened Oregon Coast (OC).

Sockeye salmon (*O. nerka*): endangered SR.

Authority

Scientific research permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR 222-226). NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permits.

Anyone requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). Such hearings are held at the discretion of the Assistant Administrator for Fisheries, NMFS.

Applications Received

Permit 1318 - Modification 1

Permit 1318 currently authorizes the Oregon Department of Fish and Wildlife (ODFW) to take juvenile UCR Chinook salmon, UCR steelhead, SR steelhead, SR fall-run Chinook salmon, SR spr/sum

¹ The petitioners in this investigation are Bristol Metals, L.P., Felker Brothers Corp., Marcegaglia

USA, Inc., Outokumpu Stainless Pipe Inc., and the United Steel Workers of America.

Chinook salmon, SR sockeye salmon, MCR steelhead, UWR Chinook salmon, UWR steelhead, LCR Chinook salmon, LCR coho salmon, LCR steelhead, and CR chum salmon in the Willamette and Columbia River basins. They are asking to modify the permit so they may be allowed to take OC coho salmon; they also wish to add a seventh project to the permit. The Permit currently contains the following projects: (1) Warm Water Fish Management Surveys; (2) Investigations of Natural Production of Spring Chinook Salmon in the Mohawk System; (3) Genetic Characterization of Rainbow Trout in the Upper Willamette System; (4) Fish Abundance, Population Status, Genetics and Disease Surveys in the Upper Willamette Basin; (5) Native Rainbow and Cutthroat Trout Surveys for Abundance, Size Composition, and Migration Patterns in the Mainstem McKenzie River; (6) Resident Redband Population Estimates in the Deschutes River. The ODFW wishes to add (7) Resident Redband Population Estimates in the Crooked River.

The purpose of the research is to gather information on fish population structure, abundance, genetics, disease occurrences, and species interactions throughout many anadromous fish-bearing basins in Oregon. That information would be used to direct management actions to benefit listed species. Juvenile salmonids would be collected during boat electrofishing operations in the subbasins listed in the project titles above. Some fish would be anesthetized, sampled for length and weight, allowed to recover from the anesthesia, and released; most would only be shocked and allowed to swim away, or be netted and immediately released. The ODFW does not intend to kill any of the fish being captured, but a small number may die as an unintended result of the activities.

Permit 13494

The Bonneville Power Administration (BPA) is requesting a 5-year research permit to take LCR Chinook salmon, CR coho salmon, and LCR steelhead during fish collection and transport activities on the Cowlitz River, Washington. The purpose of the research is to determine the fishes' response to being collected and transported around two dams that currently have no downstream fish passage. The activities will take place at a facility that is co-located with the Cowlitz Falls Hydroelectric dam on the upper Cowlitz River in southeastern Washington State.

The fish collection facility is a key component of ongoing efforts to re-establish self-supporting populations of anadromous salmonids in the upper

Cowlitz river basin. The proposed research seeks to (1) improve fish collection efficiency by modifying the operation and physical structure of the fish collection facility, and (2) develop an ongoing transportation program to maintain fish populations. The research would benefit the fish by helping them get access to (and egress from) new habitat that was previously cut off by impassible barriers. Fish collected at the facility would be transported by truck and released in the free-flowing section of the Cowlitz River downstream of the hydropower projects. Scales and other biological samples would be taken from some of the fish. The BPA does not intend to kill any of the fish being studied, but a small percentage of them may be killed as an unintended result of the research.

This notice is provided pursuant to section 10(c) of the ESA. NMFS will evaluate the application, associated documents, and comments submitted to determine whether the application meets the requirements of section 10(a) of the ESA and Federal regulations. The final permit decisions will not be made until after the end of the 30-day comment period. NMFS will publish notice of its final action in the **Federal Register**.

Dated: June 17, 2008.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648-XH52

Fisheries of the Exclusive Economic Zone Off Alaska; Prohibited Species Donation Program

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; selection of an authorized distributor.

SUMMARY: NMFS announces the renewal of permits to SeaShare (formerly Northwest Food Strategies) authorizing this organization to distribute Pacific salmon and Pacific halibut to economically disadvantaged individuals under the prohibited species donation (PSD) program. Salmon and halibut are caught incidentally during directed fishing for groundfish with trawl gear

off Alaska. This action is necessary to comply with provisions of the PSD program and is intended to promote the goals and objectives of the North Pacific Fishery Management Council.

DATES: The permits are effective from August 15, 2008, through August 15, 2011.

ADDRESSES: Copies of the PSD permits for salmon and halibut may be obtained by mail from NMFS, Alaska Region, P. O. Box 21668, Juneau, AK 99802-1668, Attn: Ellen Sebastian, Records Officer; in person at NMFS, Alaska Region, 709 West 9th Street, Room 420A, Juneau, Alaska; or via the Internet at the NMFS Alaska Region website at <http://www.fakr.noaa.gov>.

FOR FURTHER INFORMATION CONTACT: Becky Carls, 907-586-7228.

SUPPLEMENTARY INFORMATION:

Background

Fishing for groundfish by U.S. vessels in the exclusive economic zone of the Bering Sea and Aleutian Islands management area (BSAI) and Gulf of Alaska (GOA) is managed by NMFS in accordance with the Fishery Management Plan for groundfish of the BSAI and the Fishery Management Plan for groundfish of the GOA (FMPs). These FMPs were prepared by the North Pacific Fishery Management Council under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C. 1801 *et seq.* Regulations governing the Alaska groundfish fisheries and implementing the FMPs appear at 50 CFR parts 600 and 679. Fishing for halibut in waters in and off Alaska is governed by the Convention between the United States and Canada for the Preservation of the Halibut Fishery of the North Pacific Ocean and Bering Sea. The International Pacific Halibut Commission (IPHC) promulgates regulations pursuant to the Convention. The IPHC's regulations are subject to approval by the Secretary of State with concurrence from the Secretary of Commerce (Secretary). After approval by the Secretary of State and the Secretary, the IPHC regulations are published in the **Federal Register** as annual management measures pursuant to 50 CFR 300.62.

Amendments 26 and 29 to the BSAI and GOA FMPs, respectively, authorize a salmon donation program and were approved by NMFS on July 10, 1996; a final rule implementing this program was published in the **Federal Register** on July 24, 1996 (61 FR 38358). The salmon donation program was expanded to include halibut as part of the PSD program under Amendments 50 and 50 to the FMPs that were approved by
