Proposed Projects

Title: Hispanic Healthy Marriage Initiative Grantee Implementation Evaluation.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), in partnership with the Office of the Assistant Secretary for Planning and

Evaluation (ASPE), U.S. Department of Health and Human Services, is proposing an information collection activity as part of the Hispanic Healthy Marriage Initiative (HHMI) Grantee Implementation Evaluation study. The proposed information collection consists of two components: (1) semistructured interviews with key respondents involved with selected marriage education programs serving Hispanic couples and individuals; and (2) focus groups with Hispanic individuals and couples participating in selected marriage education programs or declining to participate in such programs. Through this information collection and other study activities,

ACF and ASPE seek to identify the unique cultural needs of Hispanic couples and families that have implications for the design and delivery of healthy marriage education services to Hispanics, recognizing their diversity with respect to country of origin, language, and level of acculturation, among other factors.

Respondents: Marriage education program directors and managers; staff responsible for outreach, recruitment and intake activities in marriage education programs; marriage education instructors; key persons in partner organizations; and Hispanic individuals and couples.

Proposed Project

Title: Evaluation of Pregnancy Prevention Approaches—Phase 1.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), is proposing a data collection activity as part of the Evaluation of Pregnancy Prevention Approaches study. This study will assess the effectiveness of a range of programs designed to prevent or reduce sexual risk behavior and pregnancy among older adolescents. Knowing what types of programs are effective will enhance programmatic decisions by policymakers and practitioners.

The proposed activity involves the collection of information from observations of program activities and interviews with a range of experts about various aspects of existing prevention programs and topics the experts view as important to address through evaluation. These data will be used to help enhance decisions about the types of programs to be evaluated in the study.

Respondents: Researchers and policy experts, program directors, program staff, or school administrators.
