I. Background

In the **Federal Register** of September 25, 2007 (72 FR 54446), FDA announced the availability of a draft guidance entitled "Guidance for Industry: Microbiological Considerations for Antimicrobial Food Additive Submissions." FDA gave interested parties an opportunity to submit comments on the draft guidance by November 26, 2007. The agency considered the one received comment as it finalized the guidance. The guidance announced in this notice finalizes the draft guidance dated September 2007.

The guidance document represents FDA's current thinking on a number of microbiological issues unique to the preparation of premarket submissions for antimicrobial food additives. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.
