

estimates that each response would take approximately 262 hours, requiring approximately 1048 total hours annually per custodian. The total annual burden associated with these requirements of the rule would be approximately 15,720 hours (15 global custodians × 1048 hours per custodian). Therefore, the total annual burden of all collection of information requirements of rule 17f-5 is estimated to be up to 16,038 hours (318 + 15,720). The total annual cost of burden hours is estimated to be \$3,214,080 (318 hours × \$2000/hour for board of director's time, plus 15,720 hours × \$164/hour for a trust administrator's time).⁵ Compliance with the collection of information requirements of the rule is necessary to obtain the benefit of relying on the rule's permission for funds to maintain their assets in foreign custodians.

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act. The estimate is not derived from a comprehensive or even a representative survey or study of the costs of Commission rules and forms. Compliance with the collection of information requirements of the rule is necessary to obtain the benefit of relying on the rule's permission for funds to maintain their assets in foreign custodians.

Written comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

⁵ The \$164/hour figure for a trust administrator is from SIFMA's Management & Professional Earnings in the Securities Industry 2007, modified to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead. The \$2000/hr board of director time is from industry sources.
