Honey from Argentina: Notice of Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: July 7, 2008.

FOR FURTHER INFORMATION CONTACT: Maryanne Burke or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-5604 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 3, 2007, the Department of Commerce (the Department) published in the **Federal Register** its notice of opportunity to request an administrative review of the antidumping duty order on honey from Argentina. *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 72 FR 67889 (December 3, 2007). In response, on December 31, 2007, the American Honey Producers Association and the Sioux Honey Association (collectively, petitioners) requested an administrative review of the antidumping duty order on honey from Argentina for the period December 1, 2006 through November 30, 2007. On January 28, 2008, the Department published a notice of initiation of this administrative review. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 73 FR 4829 (January 28, 2008). The current deadline for the preliminary results of this review is September 2, 2008.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Tariff Act), requires the Department to complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Tariff Act allows the Department to extend the 245-day time

limit for the preliminary results to a maximum of 365 days.

The Department has determined it is not practicable to complete this review within the statutory time limit because we require additional time to conduct sales below-cost investigations of three respondents. We also require additional time to fully develop the record and analyze information related to the request for partial revocation of the order with respect to Seylinco, S.A. For these reasons, it is impracticable to complete the preliminary results of this administrative review within the originally-specified time limit. Accordingly, the Department is extending the time limit for completion of the preliminary results of this administrative review until no later than December 19, 2008, which is 354 days from the last day of the anniversary month. We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Tariff Act.

Dated: June 30, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Fresh Garlic from the People's Republic of China: Notice of Extension of Time Limits for the Final Results of the Twelfth New Shipper Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: July 7, 2008.

FOR FURTHER INFORMATION CONTACT: Blaine Wiltse and Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-6345 and (202) 482-0413, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 1, 2008, the Department of Commerce ("the Department") published the preliminary results of these new shipper reviews, covering the period November 1, 2006, through April

30, 2007. See *Fresh Garlic from the People's Republic of China: Preliminary Results of the 12th New Shipper Reviews*, 73 FR 24042 (May 1, 2008) ("Preliminary Results"). The final results for these new shipper reviews are currently due no later than July 21, 2008, the next business day after 90 days from the date of issuance of the preliminary results of review.¹

Extension of Time Limit for the Final Results

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), and 19 CFR 351.214(i)(1) require the Department to issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated and to issue final results of a review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for completion of the final results of a new shipper review to 150 days if it determines that the case is extraordinarily complicated. See section 751(a)(2)(B)(iv) of the Act, and 19 CFR 351.214(i)(2).

In order to allow parties additional time to submit comments regarding the Department's *Preliminary Results*, and the verifications associated with these new shipper reviews, the Department extended the deadline for the submission of case and rebuttal briefs. See Letter to All Interested Parties, "New Shipper Review of Fresh Garlic from the People's Republic of China: Briefing Schedule Extension," from Catherine Bertrand, Program Manager, Office 9, dated June 19, 2008. As a result of this extension, and the extraordinarily complicated issues raised in these new shipper reviews, including surrogate valuation, intermediate input methodology and an analysis of the *bona fide* nature of the sales under review, it is not practicable to complete these new shipper reviews within the current time limit. Accordingly, the Department is extending the time limit for completion of the final results of these reviews by 60 days (for a total of 150 days after the issuance of the preliminary results) to September 19, 2008, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

¹ In the *Preliminary Results* we inadvertently stated that the issuance of the final results would be 90 days from the publication of the preliminary results of review. However, in accordance with Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), and 19 CFR 351.214(i)(1), the date of issuance of the final results will be based on the date of issuance of the *Preliminary Results*.

We are issuing and publishing this notice in accordance with sections 751(a)(2)(B)(iv) and 777(i)(1) of the Act.

Dated: June 30, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

Cooperative Institute: Eastern U.S. Continental Shelf Frontier Exploration, Research, and Technology Development

AGENCY: Cooperative Institutes Program Office (CIPO), Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of funding availability.

SUMMARY: The Office of Oceanic and Atmospheric Research (OAR) invites applications for the establishment of a cooperative institute (CI) that will: Explore and research continental shelf frontier ecosystems; advance the state of knowledge of both shallow and deep coral ecosystems under U.S. jurisdiction; and develop, test and evaluate advanced ocean technologies and tools. This CI will facilitate a long-term collaborative environment between NOAA and the recipient(s) within which broad-based exploration, research, technology development, and education and outreach capabilities that focus on NOAA's priorities for the living and non-living marine resources within and beyond the eastern U.S. Continental Shelf can be developed and sustained. The CI may consist of one or more research institutions with expertise and capabilities in the NOAA priority areas that contribute to the areas of research described as research themes listed below.

The CI should possess outstanding capabilities to conduct ocean exploration, research and technology development in the three research themes summarized below. Additionally, the CI should possess the ability to conduct outreach and education activities in support of these three research themes.

i. Develop advanced underwater technologies. The CI will expand the scope and efficiency of exploration and research by developing, testing, and

applying new and/or innovative uses of existing technologies to ocean exploration and research activities.

ii. Explore and research the frontier regions of the eastern U.S. Continental Shelf and beyond. The CI will focus on the exploration and research of ecosystems and habitats of economic, hazardous, scientific or cultural importance within and beyond the eastern U.S. Continental Shelf as defined by the NOAA Ocean Exploration and Research program.

iii. Vulnerable Deep and Shallow Coral Ecosystems. Priority activities will include supporting ocean exploration and research using advanced underwater technologies and techniques to improve the understanding of coral and sponge ecosystems.
