

Comment: Western should require the identical terms and conditions in new customers' contracts to those of existing firm power customers. If withdrawals are made in the future, reductions should be applied to all firm power contract holders.

Response: All of the RMR's firm electric service contracts provide for future withdrawals according to the Program. New firm electric service customers will be subject to those same terms. Thus, they will be subject to any future withdrawals to create a resource pool under the Program.

Use of the Post-2009 Resource Pool

Based on the letters of interest and the comments noted above, Western has determined the resource pool should be made available to new preference customers only and not for other appropriate purposes. Allocations to new preference customers shall be made in accordance with the Post-1989 Marketing Plan and the Program. Western intends to carry forward the key principles and the general eligibility and allocation criteria established in its Post-2004 Resource Pool procedures. Western will publish a separate **Federal Register** notice identifying the procedures and requesting applications from potential new eligible preference customers. Note that those who have previously expressed an interest in an allocation of LAP Federal power must submit an application to be considered for an allocation.

Review Under the National Environmental Policy Act

Western completed an environmental impact statement on the Program, pursuant to the National Environmental Policy Act of 1969 (NEPA). The Record of Decision was published in the **Federal Register** on October 12, 1995 (60 FR 53181). Western will comply with any additional NEPA requirements for this resource pool.

Dated: June 26, 2008.

Timothy J. Meeks,
Administrator.

Potential Revision of the Product Performance Test Guidelines, Structural Treatments; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA will conduct a public workshop on termiticide performance testing to discuss the potential revision of the OPPTS 810.3600 Product Performance Testing Guidelines and information needed to revise the testing guideline. Stakeholders have developed novel approaches to termite treatment and developed new pesticide chemistries since the adoption of the existing termiticide performance guideline. In response to these developments, EPA is holding a public

workshop and requesting input on the relevance of the existing 810.3600 testing guideline scope and factors to be included in a revision, the applicability of the existing test guideline to novel product chemistries, and approaches to resolve the disparity between soil applied liquid termiticide testing guidelines and testing of other pesticides which may provide structural protection. This input will inform EPA on a possible guideline revision.

DATES: The meeting will be held on July 21, 2008 from 9:00 a.m. to 5:00 p.m. and July 22, 2008 from 9:00 a.m. to 5:00 p.m.

To request accommodation of a disability, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

ADDRESSES: The meeting will be held at Potomac Yard South Tower, 2777 South Crystal Drive, Arlington, VA 22202

Requests to participate in the meeting, identified by docket identification (ID) number EPA-HQ-OPP-2008-0530, may be submitted to the person listed under **FOR FURTHER INFORMATION CONTACT**.
