

designated motorized road or motorized trail.

Management zone—The three administrative designations (Front Country, Rustic, and Wilderness) into which the NCA, associated wilderness, and contiguous lands have been divided for management purposes as depicted on the Visitor Use Management Zones Map (RMP, map 2–13). Each management zone has a unique set of objectives and management decisions as described below.

- **Front country zone**—A management zone encompassing those lands that are intended to be the focal point for visitation where visitor accommodations would be made to provide primary interpretation, overlooks, trails, and associated facilities necessary to highlight resources and features of the NCA.

- **Rustic zone**—Those lands that are intended to provide an undeveloped, primitive, and self-directed visitor experience while accommodating motorized and mechanized access on designated routes, and where facilities are rare and provided only where essential for resource protection.

- **Wilderness zone**—Those lands that are intended to provide an undeveloped, primitive, and self-directed visitor experience without motorized or mechanized access and where facilities are nonexistent.

Minimal vegetation damage—rushing by foot or vehicle tires or the physical removal with hand tools of herbaceous vegetation or woody vegetation less than 18 inches tall necessary for the parking of one or more motorized vehicles, establishment of a campsite, or providing for a safe campfire. The physical removal or damage of woody vegetation taller than 18 inches is considered more than minimal damage.

Motorized equipment—Any machine that uses or is activated by a motor, engine, or other non-living power source.

Motorized vehicle—Any vehicle that is self-propelled by a non-living power source, including electric power, but not operated upon rails or upon water.

Rock climbing—Ascending or descending a rock face using rope and devices such as pitons, bolts, chocks, camming devices and webbing.

Surface protecting device—A device to prevent campfires from coming into direct contact with the ground surface, such as an elevated platform, open grill, fire blanket, or fire pan for the purpose of preventing fire scars on the surface of the Black Rock Desert playa.

Vehicle—Every device in, upon, or by which a person or property is or may be transported or drawn on land, except

devices used exclusively upon stationary rails or track.

Water hole—Any source of drinking water for livestock, wildlife, wild horses, and burros including but not limited to wildlife guzzlers, stock tanks, watering troughs, natural springs, and seeps.
