SUPPLEMENTARY INFORMATION:

I. Abstract

The Marine Mammal Protection Act requires any commercial fisher operating in Category I and II fisheries to register for a certificate of authorization that will allow the fisher to take marine mammals incidentals to commercial fishing operations. Category I and II fisheries are those identified by NOAA as having either frequent or occasional takings of marine mammals.

Some states have integrated the National Marine Fisheries Service (NMFS) registration process into the existing state fishery registration process and fishers in those fisheries do not need to file a separate federal registration. If applicable, vessel owners will be notified of this simplified registration process when they apply for their state or Federal permit or license.

II. Method of Collection

Most fishers have their information imported directly into the Marine Mammal Authorization Program (MMAP) from their state. Otherwise they can fill out the forms on NMFS' Web page at http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_registration_form.pdf or mail in an application made available to them in the NMFS regions.
