This notice is being published in accordance with the National Environmental Policy Act (NEPA) and NRC regulations found in 10 CFR part 51. The NRC will first conduct a scoping process for the supplement to the ESP EIS and, as soon as practicable thereafter, will prepare a draft supplement for the ESP EIS for public comment. Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. Pursuant to NRC regulations in 10 CFR 51.92(e), the scoping process for the supplemental EIS to the ESP Final EIS

will be used to accomplish the following:

- a. Identification of the economic, technical, and other benefits and costs of the proposed action, to the extent that the EIS for the ESP did not include an assessment of these benefits and costs;
- b. Identification of other energy alternatives, to the extent that the EIS for the ESP did not include an assessment of energy alternatives;
- c. Identification of the issues related to the impacts of construction and operation of the facility that were not resolved in the ESP proceeding; and
- d. Identification of the issues related to the impacts of construction and operation that were resolved in the ESP proceeding but where new and significant information exists, including but not limited to, new and significant information demonstrating that the design of the facility falls outside the site characteristics and design parameters specified in the ESP.

The NRC invites the following entities to participate in the scoping process:

- a. The applicant, Dominion;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- d. Any affected Indian tribe;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who has submitted a petition for leave to intervene.

In light of the above information, the NRC staff has determined to reopen the scoping comment period for thirty (30) days to enhance the ability of members of the public to participate in the scoping process. Members of the public may send written comments on the environmental scope of the North Anna COL application review to the Chief, Rulemaking, Directives and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001 and should cite the publication date and page number of this **Federal Register** notice. Written comments should be postmarked by August 15, 2008. Comments may also be delivered to Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland from 7:30 a.m. to 4:15 p.m., during Federal workdays. Electronic comments may be sent via e-mail to

[NORTHANNA.COLAEIS@nrc.gov](mailto:NORTHANNA.COLAEIS@nrc.gov). To be considered in the scoping process, comments should be received by the end of the scoping comment period, which is August 15, 2008. The NRC staff is considering all comments submitted in response to the March 13, 2008, notice, and members of the public need not resubmit any comments previously submitted. In addition, participation in the scoping process for the supplement to the ESP EIS does not entitle participants to become parties to the proceeding to which the supplement to the EIS relates.

The NRC staff will prepare and issue for comment the draft supplemental EIS, which will be the subject of separate notices and a public meeting. A copy of the draft supplement to the ESP EIS will be available for public inspection at the above-mentioned address, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC staff will prepare a final supplement to the ESP EIS, which will also be available for public inspection.

Information about the scoping process and development of the supplement to ESP EIS may be obtained from Ms. Alicia Williamson, Environmental Project Manager, by phone at (301) 415-1878 or via e-mail at [Alicia.Williamson@nrc.gov](mailto:Alicia.Williamson@nrc.gov).
