

firm increased reliance on imports of articles like or directly competitive with medical and mobility devices produced by the subject workers. AR 12. As such, the Department determines that Section (a)(2)(A)(C) has been met.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department herein presents the results of its investigation regarding certification of eligibility to apply for ATAA. The Department has determined in this case that the group eligibility requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the facts developed in the remand investigation for workers of Electric Mobility Corporation, Sewell, New Jersey, I determine that there was a total separation of a significant number or proportion of workers at the subject firm, that there was a decline in sales and production, and that increased imports of articles like or directly competitive with medical and mobility devices produced by the subject firm contributed importantly to the decline in sales and production and the worker separations at that firm.

In accordance with the provisions of the Act, I make the following certification:

All workers of Electric Mobility Corporation, Sewell, New Jersey, who became totally or partially separated from employment on or after February 5, 2007, through two years from the issuance of this revised determination, are eligible to apply for Trade Adjustment Assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC this 10th day of July 2008.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.
