- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What Action is the Agency Taking?

This notice opens a 60-day public comment period on the subject proposed registration review final decision. The Agency is proposing a registration review final decision for the pesticide case shown in Table 1 for sulfluramid.

TABLE 1.—REGISTRATION REVIEW DOCKET - PROPOSED FINAL DECISION

| Registration Review Case Name and Number | Pesticide Docket ID Number | Chemical Review Manager, Contact Information |
|--|----------------------------|--|
| Sulfluramid, Case 7411 | EPA-HQ-OPP-2007-1082 | Rosanna Louie (703) 308-0037 louie.rosanna@epa.gov |

The docket for registration review of this pesticide case includes earlier documents related to the registration review of the subject case. For example, the review opened with the posting of a Summary Document, containing a Preliminary Work Plan, for public comment. A Final Work Plan was posted to the docket following public comment on the initial docket. The documents in the initial docket described the Agency's rationales for not conducting additional risk assessments for the registration review of the sulfluramid. This proposed registration review final decision continues to be supported by those rationales included in documents in the initial docket. Following public comment, the Agency will issue a final registration review decision for products containing sulfluramid.

The registration review program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. Section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1996 by the Food Quality Protection Act, required EPA to establish by regulation procedures for reviewing pesticide registrations, originally with a goal of reviewing each pesticide's registration every 15 years to ensure that a pesticide continues to meet the FIFRA standard for registration. The Agency's final rule to implement this program was issued in August 2006 and became effective in October 2006 and appears at 40 CFR 155.40. The Pesticide Registration Improvement Act of 2003 ("PRIA") was amended and extended in September 2007. FIFRA as amended by PRIA in

2007 requires EPA to complete registration review decisions by October 1, 2022 for all pesticides registered as of October 1, 2007.

The registration review final rule provides for a minimum 60-day public comment period for all proposed registration review final decisions. This comment period is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the proposed decision. All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. These comments will become part of the Agency Docket for sulfluramid. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. The Agency will carefully consider all comments received by the closing date and will provide a Response to Comments Memorandum in the Docket and regulations.gov.

The final registration review decision will explain the effect that any comments have had on the decision. Background on the registration review program is provided at: http://www.epa.gov/oppsrrd1/registration_review/. Quick links to earlier documents related to the registration review of this pesticide are provided at: http://www.epa.gov/oppsrrd1/registration_review/sulfluramid/index.htm.

B. What is the Agency's Authority for Taking this Action?

FIFRA Section 3(g) and 40 CFR Part 155.40 et seq. provide authority for this action.
