Description: The U.S. Department of Homeland Security (DHS) is the lead coordinator in the national effort to identify and prioritize the country's critical infrastructure and key resources (CIKR). At DHS, this responsibility is managed by the Office of Infrastructure Protection (IP) in the National Protection and Programs Directorate (NPPD). Beginning in FY2006, IP engaged in the annual development of a list of CIKR assets and systems to improve IP's CIKR prioritization efforts; this list is called the Critical Infrastructure List. The Critical Infrastructure List includes assets and systems that, if destroyed, damaged or otherwise compromised, could result in significant consequences on a regional or national scale. This list provides a common basis for DHS and its security partners during the undertaking of CIKR protective planning efforts to keep our Nation safe. Collection of this information is directed and supported by Public Law 110-53 "Implementing Recommendations of the 9/11 Commission Act of 2007," August 3, 2007; and Homeland Security Presidential Directive (HSPD) 7, "Critical Infrastructure Identification, Prioritization, and Protection," December 17, 2003.

Dated: July 17, 2008.
