ENVIRONMENTAL PROTECTION AGENCY

[FRL-8696-8; Docket ID No. EPA-HQ-ORD-2006-0260]

Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of an extension of the public comment period for the Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria.

SUMMARY: The EPA is announcing an extension of the public comment period for the draft document titled,

“Integrated Science Assessment for Sulfur Oxides—Health Criteria; Second External Review Draft” (EPA 600/R-08/047). The draft document was prepared by the National Center for Environmental Assessment within EPA’s Office of Research and Development as part of the Agency’s review of the primary (health-based) national ambient air quality standards (NAAQS) for sulfur dioxide (SO₂).

EPA is releasing this draft document solely for the purpose of seeking public comment and for review by the Clean Air Scientific Advisory Committee (CASAC) (meeting date and location to be specified in a separate **Federal Register** notice). It does not represent and should not be construed to represent any Agency policy, viewpoint, or determination. EPA will consider any public comments submitted in accordance with this notice when revising the document.

DATES: The public comment period began on May 30, 2008. This notice announces the extension of the deadline for public comment from July 25, 2008, to August 11, 2008. Comments must be received on or before August 11, 2008.

ADDRESSES: The “Draft Integrated Science Assessment for Sulfur Oxides—Health Criteria” will be available primarily via the Internet on the National Center for Environmental Assessment’s home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of CD-ROM or paper copies will be available. Contact Ms. Ellen Lorang by phone (919-541-2771), fax (919-541-5078), or e-mail (lorang.ellen@epa.gov) to request either of these, and please provide your name, your mailing address, and the document title, “Draft Integrated Science Assessment for Sulfur Oxides—Health

Criteria" (EPA/600/R-08/047) to facilitate processing of your request.

FOR FURTHER INFORMATION CONTACT: For technical information, contact Dr. Jee Young Kim, NCEA; telephone: 919-541-4157; facsimile: 919-541-2985; or e-mail: kim.jee-young@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Document

Section 108(a) of the Clean Air Act directs the Administrator to identify certain pollutants that "cause or contribute to air pollution which may reasonably be anticipated to endanger public health and welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air * * * ." Under section 109 of the Act, EPA is then to establish national ambient air quality standards (NAAQS) for each pollutant for which EPA has issued criteria. Section 109(d) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health and welfare. EPA is also to revise the NAAQS, if appropriate, based on the revised air quality criteria.

Sulfur oxides are one of six principal (or "criteria") pollutants for which EPA has established NAAQS. Periodically, EPA reviews the scientific basis for these standards by preparing an Integrated Science Assessment (ISA), formerly called an Air Quality Criteria Document (AQCD). The ISA and supplementary annexes, in conjunction with additional technical and policy assessments, provide the scientific basis for EPA decisions on the adequacy of a current NAAQS and the appropriateness of new or revised standards. The Clean Air Scientific Advisory Committee (CASAC), an independent science advisory committee mandated by the Clean Air Act and part of the EPA's Science Advisory Board (SAB), is charged with independent expert scientific review of EPA's draft ISAs.

On May 16, 2006 (71 FR 28023), EPA formally initiated its current review of the criteria for Sulfur Oxides, requesting the submission of recent scientific information on specified topics. A draft of EPA's "Integrated Plan for Review of the Primary National Ambient Air Quality Standard for Sulfur Oxides" was made available in February 2007 for public comment and was discussed by the CASAC via a publicly accessible

teleconference consultation on May 11, 2007 (72 FR 20336). A review of the secondary (welfare-based) NAAQS for Sulfur Oxides is being conducted separately, in conjunction with the review of the secondary NAAQS for Oxides of Nitrogen. The plan was finalized and made available in October 2007 (http://www.epa.gov/ttn/naaqs/standards/so2/s_so2_cr_pd.html). In February 2007 (72 FR 6238), a workshop was held to discuss, with invited scientific experts, initial draft materials prepared in the development of the ISA and supplementary annexes for sulfur oxides. The first external review draft of this ISA was released for public comment and review by the CASAC on September 28, 2007 (72 FR 55207), and was reviewed by CASAC at a public meeting held on December 5-6, 2007 (72 FR 64216). The second draft document was released for CASAC and public review on May 30, 2008 (73 FR 31113); this draft document incorporated revisions to address comments raised by CASAC and the public. The Annexes to the draft ISA were made available for review on June 17, 2008. In response to requests from the public, EPA is extending the deadline for public comments from July 25 to August 11, 2008.

The second external review draft ISA for Sulfur Oxides will be discussed at a public meeting for review by CASAC, and public comments received will be provided to the CASAC review panel. A future **Federal Register** notice will inform the public of the exact date and time of that CASAC meeting.
