

Transmittal No. 08-43**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act, as amended****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The AIM-120C-7 Advanced Medium Range Air-to-Air Missile (AMRAAM) is a new generation air-to-air missile. The AIM-120C-7 AMRAAM hardware, including the missile guidance section, is classified Confidential. State-of-the-art technology is used in the missile to provide it with unique beyond-visual-range capability. Significant AIM-120C-7 features include a target detection device with embedded electronic countermeasures, an electronics unit within the guidance section that performs all radar signal processing, mid-course and terminal guidance, flight control, target detection and warhead burst point determination. Anti-tampering security measures have been incorporated into the AIM-120C-7 to prevent exploitation of the AMRAAM software.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon systems effectiveness or could be used in the development of a system with similar or advanced capabilities.

- (viii) **Date Report Delivered to Congress:** JUL 09 2008

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Germany - Tornado Aircraft Training and Logistics Support

The Government of Germany has requested a possible sale for the continuation of base services for the German Air Force Tornado aircraft operations at Holloman Air Force Base (AFB), New Mexico. Base services provided will be for operations and logistics support including training, fuel, munitions, base operating support, and other related operational/logistics requirements. The estimated cost is \$250 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Germany and enhancing standardization and interoperability with U.S. forces.

Holloman AFB is the only location where the German Air Force trains aircrews in Tornado aircraft operations and tactics. These operations began at U.S. Air Force facilities in 1989.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Germany.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
