Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2008–0078]

Commercial Driver's License (CDL) Standards; Rotel North American Tours, LLC; Exemption Application

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to grant Rotel North American Tours, LLC (Rotel), an exemption to enable 22 drivers with German commercial driver's licenses (CDLs) to operate 11 commercial motor vehicles (CMVs) in the U.S. without a CDL issued by one of the States. Rotel conducts tours of the U.S. on a seasonal basis for Europeans. It uses motor coaches that are equipped with onboard sleeping and eating facilities. The drivers, in addition to operating the CMVs, provide oral commentary in German. Rotel previously was able to conduct these operations without exemption because its drivers were able to obtain (and renew) non-resident CDLs from certain States. However, there are currently no States willing to issue non-resident CDLs. Rotel states that it must obtain this exemption or end its specialty tour operations.

DATES: This exemption is effective from July 30, 2008 through July 30, 2010.

FOR FURTHER INFORMATION CONTACT: Mr. Robert F. Schultz, Jr., FMCSA Driver and Carrier Operations Division, Office of Bus and Truck Standards and Operations. Telephone: 202–366–2718. E-mail: MCPSD@dot.gov.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31315 and 31136(e), FMCSA may grant an exemption from the CDL requirements in 49 CFR 383.23 for a two-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level of safety that would be achieved absent such exemption” (49 CFR 381.305(a)).

Request for Exemption

Rotel, headquartered in Terre Haute, Indiana, conducts bus tours of the United States, Canada, and Mexico for Europeans from the end of March through the middle of October each year. It currently has 22 bus drivers and 11 customized buses dedicated to these operations. Rotel states that it offers a unique touring experience in that each of its buses is equipped with a galley that allows Rotel to offer dining with European cuisine. In addition, each bus is equipped with sleeping accommodations for the passengers.

Rotel drivers operate the buses and deliver oral commentary in German during the tour. The Rotel buses are CMVs as that term is defined in 49 CFR 383.5. Therefore, the operators of the buses must possess a valid U.S. CDL (49 CFR 383.23). Until recently, German drivers could obtain a non-resident CDL in most States. However, Rotel reports that because of heightened security concerns across the U.S., no State currently issues non-resident CDLs. Rotel requests that FMCSA exempt its 22 bus drivers from the requirement that they possess a CDL issued by a State, so that the drivers may operate these 11 buses without a U.S. CDL on a seasonal basis for a period of 2 years.

Rotel's drivers are residents and citizens of Germany. They hold German CDLs, but the German CDL is not recognized in the U.S. Rotel prefers to use native German drivers to conduct the tours. Rotel experimented with using other drivers, but found that the quality of its service was affected adversely.

A complete list of the names and addresses of the drivers is included in the docket of this matter. Rotel believes these drivers possess sufficient knowledge, skills, and experience to ensure a level of safety that is equivalent to, or greater than, the level of safety that would be obtained by complying with the requirement for a U.S. CDL. A copy of Rotel's application for exemption is available for review in the docket for this notice.

Comments

On March 20, 2008, FMCSA published notice of this application, and asked for public comment (73 FR 15044). Two comments were received to the public docket. Ms. Deb Carlson of the Department of Public Safety for the State of Minnesota supported the application by pointing out that Germany has “an extensive driver education requirement” and that “there should not be any concerns” in terms of safety if these drivers were allowed to
