

FEDERAL TRADE COMMISSION

Granting of Request for Early Termination of the Waiting Period Under the Premerger Notification Rules

Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott Rodino Antitrust Improvements Act of 1976, requires

persons contemplating certain mergers or acquisitions to give the Federal Trade Commission and the Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register**.

The following transactions were granted early termination of the waiting period provided by law and the premerger notification rules. The grants were made by the Federal Trade Commission and the Assistant Attorney General for the Antitrust Division of the Department of Justice. Neither agency intends to take any action with respect to these proposed acquisitions during the applicable waiting period.

SUPPLEMENTARY INFORMATION: In
compliance with 44 U.S.C. 3507, FDA
has submitted the following proposed
collection of information to OMB for
review and clearance.

**Requirements for Collection of Data
Relating to the Prevention of Medical
Gas Mix-ups at Health Care Facilities-
Survey—(OMB Control Number 0910-
0548)—Extension**

On March 7, 2008 (73 FR 12452) and
July 1, 2008 (73 FR 37465) respectively,
FDA published a 60-day and 30-day
notice stating that it had received 4
reports of medical gas mix-ups
occurring during the past 9 years which
involved 7 deaths and 15 injuries to
patients who were thought to be
receiving medical grade oxygen, but
who were actually receiving a different
gas (e.g., nitrogen, argon) that had been
mistakenly connected to the facility's
oxygen supply system. These reported
incidents actually occurred between
1998 and 2000 which, at the time,
prompted the FDA in 2001 to publish
guidance making recommendations to
help hospitals, nursing homes, and
other health care facilities avoid the
tragedies that result from medical gas
mix-ups and alerting these facilities to
the hazards. This survey is intended to
assess the degree of facilities'
compliance with safety measures to
prevent mix-ups, to determine if further
steps are warranted to ensure the safety
of patients.

In the **Federal Register** of March 7,
2008 (73 FR 12452), FDA published a
60-day notice requesting public
comment on the information collection
provisions. No comments were received.
