Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. “Subtitle VII: Aviation Programs,” describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

1. Is not a “significant regulatory action” under Executive Order 12866,
2. Is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

You can find our regulatory evaluation and the estimated costs of compliance in the AD Docket.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new AD:

Effective Date

(a) This airworthiness directive (AD) is effective September 9, 2008.

Affected ADs

(b) None.

Applicability

(c) This AD applies to Boeing Model 737–600, –700, –700ER, –800, –900, and –900ER series airplanes, certificated in any category; line numbers 1 through 2196 inclusive.

Unsafe Condition

(d) This AD results from a report of a rod end fracture on a rudder power control unit (PCU) control rod, which is similar to the ones used for the elevator tab pushrods. Analysis revealed that the fractured rod end had an incorrect hardness, which had probably occurred during the manufacture of the control rod. We are issuing this AD to prevent fracture of the elevator tab pushrod ends, which could result in excessive in-flight vibrations of the elevator tab, possible loss of the elevator tab, and consequent loss of controllability of the airplane.

Compliance

(e) Comply with this AD within the compliance times specified, unless already done.

Pushrod Replacement

(f) At the time specified in paragraph 1.E., “Compliance,” of Boeing Special Attention Service Bulletin 737–27–1284, dated November 28, 2007, except where the service bulletin specifies a compliance time after the date on the service bulletin, this AD requires compliance within the specified compliance time after the effective date of this AD: Replace the pushrods for the left and right elevator tab control mechanisms with new, improved pushrods by doing all the actions in accordance with the Accomplishment Instructions of Boeing Special Attention Service Bulletin 737–27–1284, dated November 28, 2007.

Parts Installation

(g) As of the effective date of this AD, no person may install a pushrod assembly, part number 65–45166–24, on any airplane.

Alternative Methods of Compliance (AMOCs)

(h)(1) The Manager, Boeing Commercial Airplanes Delegation Option Authorization Organization who has been authorized by the Manager, Seattle ACO, to make those findings. For a repair method to be approved, the repair must meet the certification basis of the airplane.

Material Incorporated by Reference

(i) You must use Boeing Special Attention Service Bulletin 737–27–1284, dated November 28, 2007, to do the actions required by this AD, unless the AD specifies otherwise.

(1) The Director of the Federal Register approved the incorporation by reference of this service information under 5 U.S.C. 552(a) and 1 CFR part 51.

(2) For service information identified in this AD, contact Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124–2207.

(3) You may review copies of the service information incorporated by reference at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington; or at the National Archives and Records Administration (NARA). SUPPLEMENTARY INFORMATION:

Background

On June 15, 2004, the United States and the Kingdom of Morocco (the “Parties”) signed the U.S.-Morocco Free Trade Agreement ("MFTA" or “Agreement”). The stated objectives of the MFTA are to: Encourage expansion and diversification of trade between the Parties; eliminate barriers to trade in, and facilitate the cross-border movement of, goods and services between the territories of the Parties; promote conditions of fair competition in the free trade area; substantially increase investment opportunities in the territories of the Parties; provide adequate and effective protection and enforcement of intellectual property rights in each Party’s territory; create effective procedures for the implementation and application of the MFTA, for its joint administration and for the resolution of disputes; and establish a framework for further regional and multilateral cooperation to expand and enhance the benefits of the MFTA.

The provisions of the MFTA were adopted by the United States with the enactment of the United States-Morocco Free Trade Agreement Implementation Act (the “Act”), Public Law 108–302, 118 Stat. 1103 (19 U.S.C. 3805 note), on August 17, 2004. Section 205 of the Act requires that regulations be prescribed as necessary to implement these provisions of the MFTA.

On December 22, 2005, the President signed Proclamation 7971 to implement the provisions of the MFTA. The proclamation, which was published in the Federal Register on December 27, 2005 (70 FR 76049), modified the Harmonized Tariff Schedule of the United States ("HTSUS") as set forth in Annexes I and II of Publication 3721 of the U.S. International Trade Commission. The modifications to the HTSUS included the addition of new General Note 27, incorporating the relevant MFTA rules of origin as set forth in the Act, and the insertion throughout the HTSUS of the preferential duty rates applicable to individual products under the MFTA where the special program indicator “MA” appears in parenthesis in the “Special” rate of duty subcolumn. The modifications to the HTSUS also included a new Subchapter XII to Chapter 99 to provide for temporary tariff rate quotas and applicable safeguards implemented by the MFTA.

Those customs-related MFTA provisions that require implementation through regulation include certain tariff and non-tariff provisions within Chapter One (Initial Provisions and Definitions), Chapter Two (National Treatment and Market Access for Goods), Chapter Four (Textiles and Apparel), Chapter Five (Rules of Origin), and Chapter Six (Customs Administration).

In Chapter One of the MFTA, certain general definitions in Article 1.3 have been incorporated into the MFTA implementing regulations. In MFTA Chapter Two, Article 2.6 (Goods Re-entered after Repair or Alteration) requires implementation by CBP. Chapter Four of the MFTA sets forth the measures relating to trade in textile and apparel goods between Morocco and the United States under the MFTA. The provisions within Chapter Four that require regulatory action by CBP are Article 4.3 (Rules of Origin and Related Matters) and Article 4.5 (Definitions). Chapter Five of the MFTA sets forth the rules for determining whether an imported good qualifies as an originating good of the United States or Morocco (MFTA Party) and, as such, is therefore eligible for preferential tariff (duty-free or reduced duty) treatment as specified in the Agreement. Under Article 5.1, originating goods may be grouped in three broad categories: (1) Goods that are wholly the growth, product, or manufacture of one or both of the Parties; (2) goods (other than those covered by the product-specific rules set forth in Annex 4–A or Annex 5–A) that are new or different articles of commerce that have been grown, produced, or manufactured in the territory of one or both of the Parties, and that have a minimum value-content, i.e., at least 35 percent of the good’s appraised value attributable to the cost of value of materials produced in one or both of the Parties plus the direct costs of processing operations performed in one or both of the Parties; and (3) goods that satisfy the product-specific rules set forth in Annex 4–A (textile or apparel goods) or Annex 5–A (certain non-textile or non-apparel goods).

Article 5.2 explains that the term “new or different article of commerce” means a good that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of one or both of the Parties and that has a new name, character, or use distinct from the good or material from which it was transformed. Article 5.3 provides that a good will not be considered to be a new or different article of commerce as the result of undergoing simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good. CBP notes that, pursuant to letters of understanding exchanged between the Parties on June 16, 2004, in determining whether a good meets the definition of a “‘new or different article of commerce’” in § 10.769(i), the United States should be guided by the provisions of part 102 of the CBP regulations (19 CFR part 102).

Article 5.4 provides for the accumulation of production in the territory of one or both of the Parties in determining whether a good qualifies as originating under the MFTA. Articles 5.5 and 5.6 set forth the rules for calculating the value of materials and the direct costs of processing operations, respectively, for purposes of determining whether a good satisfies the 35 percent value-content requirement.

Articles 5.7 through 5.9 consist of additional sub-rules applicable to originating goods, involving retail packaging materials, packing materials for shipment, indirect materials, and transit and transshipment. In addition, Articles 5.10 and 5.11 set forth the procedural requirements that apply under the MFTA, in particular with regard to importer claims for preferential tariff treatment. Article 5.14 provides definitions of certain of the terms used in Chapter Five of the MFTA. The basic rules of origin in Chapter Five of the MFTA are set forth in General Note 27, HTSUS, and in part 102 of title 19 of the Code of Federal Regulations.

Chapter Six sets forth the customs operational provisions related to the implementation and administration of the MFTA.

Customs and Border Protection (“CBP”) is responsible for administering the provisions of the MFTA and the Act.
that relate to the importation of goods into the United States from Morocco. On June 29, 2007, CBP published CBP Dec. 07–51 in the Federal Register (72 FR 35647), setting forth interim amendments to implement the preferential tariff treatment and customs-related provisions of the MFTA. In order to provide transparency and facilitate their use, the majority of the MFTA implementing regulations set forth in CBP Dec. 07–51 were included within new subpart M in part 10 of title 19 of the Code of Federal Regulations (19 CFR subpart M, part 10). However, in those cases in which MFTA implementation was more appropriate in the context of an existing regulatory provision, the MFTA regulatory text was incorporated in an existing part within the CBP regulations.

Although the interim regulatory amendments were promulgated without prior public notice and comment procedures and took effect on June 29, 2007, CBP Dec. 07–51 provided for the submission of public comments that would be considered before adopting the interim regulations as a final rule. The prescribed public comment period closed on August 28, 2007. No comments were received in response to the solicitation of public comments in CBP Dec. 07–51.

Changes to the Regulations

The final rulemaking text set forth below incorporates certain changes, as discussed below, which CBP believes are necessary based on further internal review of the interim regulatory text.

Definition of “New or Different Article of Commerce”

The words “new or different article of commerce” are defined in §10.769(i) of the interim regulations as a good that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of one or both of the Parties and that has a new name, character, or use distinct from the good or material from which it was transformed. This definition has been revised in this final rule document to provide that such an article of commerce “exists when the country of origin of a good which is produced in a Party from foreign materials is determined to be that country under the provisions of §§102.1 through 102.21 of the CBP regulations (19 CFR 102.1 through 102.21). CBP believes that this revised definition is more transparent and is consistent with letters of understanding exchanged between the Parties which provide that, in determining whether a good meets the definition of a “new or different article of commerce,” the United States and Morocco should be guided by the provisions of Part 102 of the CBP regulations.

CBP also notes that this revised definition is identical to the definition of the same term set forth in the interim regulations implementing the United States-Bahrain Free Trade Agreement (“BFTA”) (see §10.809(i), CBP regulations (19 CFR 10.809(i)). The rules of origin set forth in the BFTA (including letters of understanding exchanged between the Parties concerning the interpretation of “new or different article of commerce”) closely parallel those in the MFTA.

Other Changes

1. In §10.761, relating to the scope of Subpart M, the last sentence has been revised to add Part 102 as one of the parts in the CBP regulations that include amendments implementing the MFTA, consistent with the revision to the definition of “new or different article of commerce” in §10.769(i) discussed above;

2. In §10.769, the definition of “substantially transformed” (formerly paragraph (o)) has been removed as those words are no longer used in Subpart M as a result of the revision of the definition of “new or different article of commerce” discussed above;

3. In §10.770, which sets forth the basic MFTA rules of origin, paragraph (a)(2) has been revised to add the words “, as defined in §10.769(i) of this subpart,” immediately following the words “new or different article of commerce” for clarification purposes;

4. Section 10.785, which concerns verifications conducted in Morocco by Moroccan authorities (at the request of CBP) relating to textile and apparel goods imported into the United States, has been removed in its entirety. CBP believes that the provisions of §10.785 are unnecessary to the proper implementation of the MFTA as they relate primarily to actions that the Government of Morocco and CBP may take in connection with verifications performed in Morocco. As such, these provisions impose no requirements on U.S. importers of textile or apparel goods or other members of the trade. In addition, CBP notes that the removal of §10.785 provides consistency between the MFTA implementing regulations and the interim regulations implementing the BFTA, which include no provisions regarding verifications in Bahrain of U.S. imports of textile and apparel products. The verification provisions in the MFTA closely parallel those in the BFTA;

5. As a result of the removal of §10.785, discussed above, §§10.786 through 10.788 of the interim regulatory text have been re-designated as §§10.785 through 10.787, respectively; and

6. In §102.0, relating to the scope of Part 102, the third sentence has been revised by adding the words “§10.769 of the United States-Morocco Free Trade Agreement regulations and” immediately following the words “new or different article of commerce under”, consistent with the revision of the definition of “new or different article of commerce” discussed above.

Conclusion

Accordingly, based on the considerations discussed above, CBP believes that the interim regulations published as CBP Dec. 07–51, should be adopted as a final rule with certain changes discussed above and as set forth below.

Executive Order 12866

CBP has determined that this document is not a regulation or rule subject to the provisions of Executive Order 12866 of September 30, 1993 (58 FR 51735, October 1993), because it pertains to a foreign affairs function of the United States and implements an international agreement and, therefore, is specifically exempted by section 3(d)(2) of Executive Order 12866.

Regulatory Flexibility Act

CBP Dec. 07–51 was issued as an interim rule rather than a notice of proposed rulemaking because CBP had determined that the interim regulations involve a foreign affairs function of the United States pursuant to §553(a)(1) of the Administrative Procedure Act. Because no notice of proposed rulemaking was required, the provisions of the Regulatory Flexibility Act, as amended (5 U.S.C. 601 et seq.), do not apply. Accordingly, this final rule is not subject to the regulatory analysis requirements or other requirements of 5 U.S.C. 603 and 604.

Paperwork Reduction Act

The collection of information in this final rule has previously been reviewed and approved by the Office of Management and Budget in accordance with the requirements of the Paperwork Reduction Act (44 U.S.C. 3507) under control number 1651–0117.

The collections of information in these regulations are in §§10.703 and 10.704. This information is required in connection with claims for preferential tariff treatment and for the purpose of the exercise of other rights under the
MFTA and the Act and will be used by CBP to determine eligibility for a tariff preference or other rights or benefits under the MFTA and the Act. The likely respondents are business organizations including importers, exporters, and manufacturers.

The estimated average annual burden associated with the collection of information in this final rule is 0.2 hours per respondent or record keeper. Under the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

Signing Authority
This document is being issued in accordance with § 0.1(a)(1) of the CBP regulations (19 CFR 0.1(a)(1)) pertaining to the authority of the Secretary of the Treasury (or his/her delegate) to approve regulations related to certain customs revenue functions.

List of Subjects
