[Project No. 2482-078]

Erie Boulevard Hydropower, L.P.; Notice of Availability of Environmental Assessment

July 30, 2008.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by Erie Boulevard Hydropower, L.P. on April 21, 2008, requesting the Commission's authorization to permit the Saratoga County Water Authority (SCWA) to withdraw water at a rate of 14 million gallons per day from the Sherman Island reservoir for municipal use.

The EA evaluates the environmental impacts that would result from permitting the SCWA to withdraw water from the Sherman Island reservoir. The proposal would include the construction of a screened intake facility placed on the bottom of the reservoir and a section of buried pipe that would extend to a pumping station located outside the project boundary. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-Project Use of Lands and Waters", issued July 30, 2008 and is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov>

www.ferc.gov using the eLibrary link. Enter the docket number "P-2482" in the docket field to access the document. For assistance, call toll-free 1-(866)-208-3372 or (202) 502-8659 (for TTY).

Kimberly D. Bose,
Secretary.

[Docket No. QF08-580-000]

Georgia-Pacific Brewton, LLC; Notice of Filing of Notice of Self-Certification of Qualifying Status of a Cogeneration Facility

July 30, 2008.

Take notice that on May 29, 2008, Georgia-Pacific Brewton LLC (GP), 32224 Highway 31, Brewton, Alabama 36426, filed with the Federal Energy Regulatory Commission a notice of self-certification of a facility as a qualifying cogeneration facility pursuant to 18 CFR 292.207(a) of the Commission's regulations.

GP states that the facility in question is a topping-cycle cogeneration facility with primary energy sources of black liquor and natural gas. The cogeneration facility consists of three recovery boilers, three power boilers, and three steam turbines to generate electricity and process heat to serve the resident paper mill. The facility is located in Brewton, Alabama.

GP further states that the facility is interconnected to Alabama Power Corporation (APC), and expects from time-to-time to sell energy to or purchase supplementary, standby, back-up, and maintenance power from APC.

A notice of self-certification does not institute a proceeding regarding qualifying facility status; a notice of self-certification provides notice that the entity making filing has determined the Facility meets the applicable criteria to be a qualifying facility. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii).

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed

docket(s). For assistance with any FERC Online service, please e-mail *FERCOnlineSupport@ferc.gov*, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Kimberly D. Bose,
Secretary.

Lowe's Home Improvement Centers, Inc.; Notice of Filing of Notice of Self-Certification of Qualifying Status of a Cogeneration Facility

July 30, 2008.

Take notice that on April 28, 2008, Lowe's Home Improvement Centers, Inc., Wilkesboro, North Carolina, filed with the Federal Energy Regulatory Commission a notice of self-certification of a facility as a qualifying cogeneration facility pursuant to 18 CFR 292.207(a) of the Commission's regulations.

This qualifying cogeneration facility consists of a 500 kW packaged diesel engine generator set operating on #2 fuel oil. The package is set on a concrete pad. The unit is self-contained, including all necessary switchgear and controls. The electricity is generated at 480 V, 3 phase, 60 Hz. The facility is located at 111 River Oaks Drive, Tarboro, NC 27886.

This qualifying facility interconnects with the Town of Tarboro's electric distribution system. The facility will provide standby power and occasionally supplementary power to Lowe's Home Improvement Center.

A notice of self-certification does not institute a proceeding regarding qualifying facility status; a notice of self-certification provides notice that the entity making the filing has determined the Facility meets the applicable criteria to be a qualifying facility. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii).

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC.
