## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASDAQ included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASDAQ has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

Nasdaq is proposing to establish a crossing mechanism for EVI securities, which is designed to allow issuers of employee stock options a market-based way of measuring the cost of such options. In this filing, Nasdaq is seeking Commission approval under Section 19(b) of the Act only for its proposed rules relating to the EVI cross. The registration of any particular EVI securities with the Commission is the responsibility of the issuer and would be subject to separate review by the Commission and its Division of Corporation Finance.<sup>4</sup> Similarly, the extent to which an issuer may use a price derived from a particular EVI crossing auction to measure the cost of employee stock options may be subject to separate review by the Commission and its staff.

The EVI Cross is a market pricing mechanism modeled on Nasdaq's industry leading crossing technology currently used for the Nasdaq Opening and Closing Crosses, the Nasdaq Crossing Network, and the Nasdaq IPO and Halt Crosses, set forth in Nasdaq Rules 4752, 4753, 4754, and 4770. As a facility of Nasdaq,<sup>5</sup> the EVI Cross will

<sup>4</sup> Nasdaq anticipates that each EVI tracking security will entitle the holder to specified payments upon the exercise of stock options comprising a reference pool of stock options that have been previously granted to employees by the issuer. The securities will represent a payment obligation of the issuer, but will not represent any direct ownership interest in the issuing company or in any of the reference pool stock options. The specific features of the securities, including how payments are calculated, maturity dates and form of payment, will be determined by each issuer. The price and allocation of the securities for each issuance will be determined by the results of the auction. The issuer will make available to the public the terms and features of its EVI tracking security.

<sup>5</sup> Nasdaq does not currently expect that EVI securities will be listed on Nasdaq or any other

utilize the existing technology network that links more than 100,000 market participants with NASDAQ and provide broad access for investors to participate in price discovery for EVI instruments. The EVI Cross will provide price discovery, equal access, and fair executions at a single price that is fully reflective of market demand for EVI instruments. The EVI Cross will be the appropriate mechanism to determine a fair market price for EVI instruments which issuers may utilize to determine their options expense.

Like Nasdaq's current crosses, the EVI Cross will have three elements: (1) A defined order entry period, (2) information dissemination, and (3) a single price execution according to a fixed algorithm. For the EVI Cross, order entry will begin at 8 a.m. and end at 5 p.m. EST on date of issuance, typically the first trading day following an options grant date. Nasdaq members will access the EVI Cross system through existing interfaces for order entry, although the EVI Cross system will be entirely separate from the Nasdaq Market Center execution system (the Single Book). The EVIs available for sale in the EVI Cross will be entered into the System in a single sell order. A Nasdaq member authorized to act on behalf of the EVI Issuer shall direct Nasdaq to enter the single sell order into the System, including the quantity of EVIs and the limit price, if any. Once entered, the sell order cannot be modified after 4 p.m. and may [sic] be cancelled after 4 p.m. only in connection with a cancellation of the EVI Cross as set forth in subsection (c) of Rule 6300. All buy orders must be for a fixed price and size; all EVIs will be offered by the issuer for sale on identical terms to individual bidders. Entered buy orders can be cancelled until 5 p.m. and no executions will occur prior to the auction close.

As with Nasdaq's current crosses, Nasdaq will facilitate price discovery for the EVI Cross. First, Nasdaq will facilitate price discovery prior to the start of the EVI Cross. As set forth in the proposed rule, Nasdaq will require issuers to make available to the public at the earliest possible time information regarding the number of EVIs made available via the EVI Cross, the reserve price, if any, of the EVIs, and the terms and conditions of the EVIs. This

national securities exchange. In the event an EVI issuer desires to list its EVIs on Nasdaq or another exchange, the issuer will be required to meet applicable listing requirements. In the event no such requirements exist, the exchange would be required to file a proposed rule change under Section 19(b) seeking approval of appropriate listing requirements.

requirement will reinforce the issuers' inherent interest in attracting the maximum number of bidders to the EVI Cross by providing potential bidders with the information they need to determine their willingness to participate and the price and size of their orders.

In addition, Nasdaq will facilitate price discovery by disseminating indicative auction price information via the Order Imbalance Indicator which is available on NASDAQTrader.com and as a data feed. Indicative price information includes: (1) The Current Reference Price, an indicative auction price at which all EVI instruments would be sold based on current bids; (2) paired units, the number of units matched for execution at the Current Reference Price; and (3) the Imbalance, the total imbalance and the size of executable units at the Current Reference Price. Indicative information will be disseminated starting at 4 p.m. once per minute for the first 45 minutes, and every 15 seconds thereafter.

Disseminating indicative information will help both issuers and purchasers. It will assist issuers by informing them whether the EVI Cross is likely to culminate in a successful auction. Indicative information will enable the issuer to determine that the EVI Cross is unlikely to succeed due to, for example, insufficient buying interest, market volatility, or buying interest below the issuer's reserve price. Thus, issuers can use the indicative information to exercise their option under the proposed rule to cancel the EVI Cross any time prior to 4:45 p.m. Indicative information assists buyers by enabling them to gauge the level of buying interest and the likely outcome of the EVI Cross. Thus, buyers can use indicative information to exercise their options under the rule to enter or cancel orders in the EVI Cross. Nasdaq understands that the transparency created by the dissemination of indicative information has been a major factor in the success of Nasdaq's Opening, Closing, and Intra-Day Crosses.

To protect against volatility, Nasdaq will extend the quote-only period if a price change greater than one percent occurs between 4:59 p.m. and 5 p.m. In that case, Nasdaq will extend the quote-only period by two minutes. If during the final minute of a two-minute extension, a price change greater than one percent occurs, the quote-only period will be extended for an additional two minutes. If the quote-only period is extended more than 10 times, members will be prohibited from canceling orders. There will be no more

than 30 extensions of the quote-only period.

The EVI Cross will occur at 5 p.m. Eastern Time or at such time that the quote-only period ends, as described above. The EVI Cross will occur at the highest price that maximizes the amount of Eligible Interest to be executed. Final auction information disseminated to all participants and all executions will clear through National Securities Clearing Corporation.

Nasdaq has unique technology and expertise in creating liquid markets and efficient price discovery. The EVI Cross will utilize the existing technology network that links more than 100,000 market participants with NASDAQ and provides broad access for investors to participate in price discovery of an options valuation security. Market data vendors and participants will have access to imbalance information for the EVI Cross by purchasing the Net Order Imbalance Indicator data feed which is available on the Nasdaq TotalView data feed and also through the Nasdaq Workstation and Nasdaq Data Store at the current filed fee.<sup>6</sup> As with other NASDAQ trading platforms, the EVI Cross will provide an open process in which all investors have the ability to enter orders and participate in price discovery. The EVI Cross mechanism will be regulated by FINRA and NASDAQ.

#### *Fees Applicable to the EVI Cross*

Nasdaq will assess a single fee for the EVI Cross equal to a percentage of the total value of the issuance of the EVI Security up to a maximum of \$1,500,000. This cost will be borne by the issuer of the EVI instrument and will cover the entire cost of the processing of the EVI Cross, including the entry and execution of orders, the dissemination of indicative information, and the transmission of execution information to cross participants and to NSCC. The fee will be based upon the total value of the EVI offering, regardless of whether all EVIs in the offering are executed in the EVI Cross, except that the fee shall be refunded if no EVI Cross occurs.

Nasdaq members will pay no fees to participate in the EVI Cross by entering orders and having them executed. Although members will be required to establish a new port for connectivity to access the EVI Cross, there will be no fee assessed for that port.

#### **2. Statutory Basis**

Nasdaq believes that the proposed rule change is consistent with the

provisions of Section 6 of the Act,<sup>7</sup> in general, and with Section 6(b)(5) of the Act,<sup>8</sup> in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Nasdaq believes this proposal supports the goals of the Exchange Act by creating a new, efficient, liquid, and transparent market for interested investors. The proposed functionality is completely voluntary with respect to all potential participants, including issuers, members, and customers. Nasdaq believes that the proposed fee is fair, reasonable and non-discriminatory, in that it must remain responsive to competitive market forces.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. To the contrary, by offering an innovative new product, Nasdaq is demonstrating the proper functioning of the competitive framework established under the Exchange Act and administered by the Commission.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

Written comments were neither solicited nor received.

#### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

The text of the proposed rule change is available at <http://nasdaqomx.cchwallstreet.com>, the principal offices of Nasdaq, and the Commission's Public Reference Room.

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of, and basis for, the proposed rule change. The text of these statements may be examined at the places specified in Item III below, and is set forth in Sections A, B, and C below.

### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

Nasdaq is proposing to modify Rule 7050 governing the fees assessed for execution of options orders entered into NOM but routed to away markets. When Nasdaq began trading standardized option on March 31, 2008, it assessed a routing fee based upon an approximation of the cost to Nasdaq of executing such orders at those markets. Nasdaq later determined that the superior approach for executions on away markets is to pass-through to exchange members the actual fees assessed by away markets plus the clearing fees for the execution of orders routed from Nasdaq. To support that approach, Nasdaq collected and organized in chart format the fees to be assessed for executions at each destination exchange.

Nasdaq has determined that it is impractical to reflect and maintain in its rule manual the chart of fees assessed by each of the six away markets. Nasdaq filed two proposed rule changes to make changes to the chart of fees for executions on away markets during the month of July.<sup>5</sup> Nasdaq expects that the current rule convention would require Nasdaq to file up to six changes each month in order to accurately reflect the changing fees for all six markets.

Accordingly, under Nasdaq's current proposed rule change, Nasdaq will preserve the pass-through approach to fees for executions on away markets but modify the way those fees appear in Nasdaq's rule manual. Rather than reflect the actual fees in its rule manual, Nasdaq will cross-reference a location on its primary website for members, NasdaqTrader.com, where it will maintain a fee schedule applicable to options executions at away markets. Nasdaq will maintain a current fee schedule as well as an historical record
