SUPPLEMENTARY INFORMATION:

Title: National Spatial Data Infrastructure Cooperative Agreements Program (NSDI CAP).

OMB Control Number: 1028-NEW.

Abstract: To date, the NSDI CAP awards have created collaborations at all levels of government, developed an understanding of geospatial information in organizations and disciplines new to the NSDI, provided seed money to enable geospatial organizations to participate in the national effort to implement the NSDI, promoted the development of standardized metadata in hundreds of organizations, and funded numerous implementations of OGC Web Mapping Services and Web Feature Services. The program is open to State, local and tribal governments, academia, and commercial and non-profit organizations and provides small seed grants to initiate sustainable on-going NSDI implementations. The program emphasizes partnerships, collaboration and the leveraging of geospatial resources in achieving its goals. Since the funding level is limited, organizations must compete to be awarded funds. Respondents are submitting proposals to acquire funding for projects to help build the infrastructure necessary for the geospatial data community to effectively discover, access, share, manage, and use digital geographic data.

The NSDI consists of the technologies, policies, organizations, and people necessary to promote cost-effective production, and the ready availability and greater utilization of geospatial data among a variety of sectors, disciplines, and communities. Specific NSDI areas of emphasis include: metadata documentation, clearinghouse establishment, framework development, standards implementation, and geographic information system (GIS) organizational coordination.

This notice concerns the collection of information that is sufficient and relevant to evaluate and select proposals for funding. We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR Part 2), and under regulations at 30 CFR 250.197, "Data and information to be made available to the public or for limited inspection." Responses are voluntary. No questions of a "sensitive" nature are asked. We intend to release the project abstracts and primary investigators for awarded/funded projects only.

Frequency of Collection: On occasion.
Affected Public: Private sector; State, local, and tribal governments; Academia; Non-profit organizations.

Respondent Obligation: Voluntary (necessary to receive benefits).

Estimated Number and Description of Respondents: We expect to receive approximately 80 proposals during the grant application process. We anticipate issuing 25 grants per year. The program is open to State, local and tribal governments, academia, and commercial and non-profit organizations.

Estimated Number of Responses: Approximately 80 applications and 50 reports per year.

Estimated Completion Time per Response: Based on comments received during the FR Notice 60 day comment period, we have adjusted our original burden request by 7 hours from 18 to 25 hours per respondent. We expect to receive approximately 80 applications, taking each applicant approximately 25 hours to complete, totaling 2,000 burden hours. We anticipate awarding an average of 25 grants per year. The 25 award recipients are required to submit 2 reports: an interim 6 months after the start of the project and a final report on or before 90 working days after the expiration of the agreement. We estimate that it will take approximately 5 hours to complete and submit the reports totaling 250 hours. Therefore, the annual burden for report preparation is 250 hours. We estimate that the total burden for this collection will be 2,250 hours.

Annual Burden Hours: 2,250.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: We have not identified any "non-hour cost" burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: To comply with the public consultation process, on November 21, 2007, we published a **Federal Register** notice (72 FR 65592) announcing our intent to submit this information collection to OMB for approval. In that notice we solicited public comments for 60 days, ending on January 22, 2008. We did not receive any public comments in response to the notice.

We again invite comments concerning this information collection on:

(1) Whether or not the collection of information is necessary, including whether or not the information will have practical utility;

(2) the accuracy of our estimate of the burden for this collection of information;

(3) ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) ways to minimize the burden of the collection of information on respondents.

Please note that the comments submitted in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time.
