The CREM also commissioned the National Academy of Science (NAS) to assess evolving scientific and technical issues related to the selection and use of computational and statistical models in decision making processes at the EPA. The NAS report which provides advice on the management, evaluation and use of models at the EPA was released in 2007 (the report may be found at http://www.nap.edu/catalog.php?record_id=11972).

This revised draft of the Guidance Document builds on the recommendations of the Science Advisory Board review panel and the National Research Council report on Models in Environmental Regulatory Decision Making.

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not

contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is printing notice of the filing of a pesticide petition received under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the establishment or modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petition described in this notice contains data or information

regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. Additional data may be needed before EPA rules on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition included in this notice, prepared by the petitioner, is included in a docket EPA has created for this rulemaking. The docket for this petition is available on-line at <http://www.regulations.gov>.

Amendment to Existing Tolerances

PP 7F7250. (EPA-HQ-OPP-2008-0609). Pace International, LLC, 5661 Branch Road, Wapato, WA 98951, proposes to amend 40 CFR 180.518 by increasing tolerances for residues of the fungicide pyrimethanil (4,6-dimethyl-*N*-phenyl-2-pyrimidinamine), in or on the raw agricultural commodities for the pome fruit crop group, namely *apples, crabapple, loquat, mayhaw, pear, including oriental pear, and quince* to 14 parts per million (ppm), and pome fruit wet pomace to 56 ppm. The petitioner, Pace International LLC, proposes to amend 40 CFR 180.518 to increase the tolerances for the combined residues of the fungicide 4,6-dimethyl-*N*-phenyl-2-pyrimidinamine, expressed as pyrimethanil, and its metabolite 4-[4,6-(dimethyl-2-pyrimidinyl)amino]phenol in or on kidney of cattle, goat, horse, and sheep to 0.6 ppm and to increase the tolerances for the combined residues of the fungicide 4,6-dimethyl-*N*-phenyl-2-pyrimidinamine, expressed as pyrimethanil, and its metabolite 4,6-dimethyl-2-(phenylamino)-5-pyrimidinol in milk to 0.06 ppm.

The analytical method for Pyrimethanil involves the extraction of Pyrimethanil from apples by homogenization with acetone, the extract acidified and washed with hexane and basified to enable solvent partition (ethyl acetate and hexane). Final clean-up was by silica SPE, with determination by gas chromatography with mass selective detection. The validated sensitivity of the method is 0.05 ppm for pyrimethanil, which allows for the detection and measurement of residues in or on pome fruits at or above the proposed tolerance level.
