[Project No. 2535-110]

South Carolina Electric & Gas Company; Notice of Availability of Environmental Assessment

August 8, 2008.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by South Carolina Electric & Gas Company on October 26, 2007, requesting the Commission's authorization to permit the Columbia County Water and Sewerage System (Columbia) to increase the maximum allowable rate of water withdrawn from the Stevens Creek Project reservoir from 10 to 47.1 million gallons per day.

The EA evaluates the environmental impacts that would result from permitting Columbia to withdraw additional water from the Stevens Creek reservoir. The proposal would include no construction activity because the existing facilities are sufficient to allow the increase in water withdrawn. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," issued August 8, 2008, and is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number "P-2535" in the docket field to access the document. For assistance, call toll-free 1-(866)-208-3372 or (202) 502-8659 (for TTY).

[Project No. 459-226]

Union Electric Company, dba AmerenUE; Notice of Availability of Environmental Assessment

August 8, 2008.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application for non-project use of project lands and waters at the Osage Project (FERC No. 459) and has prepared an Environmental Assessment (EA) for the proposed non-project use. The non-project use of project lands and waters is located near mile marker 31.2+3.3 on the Big Niangua Arm of the Lake of the Ozarks, in Camden County, Missouri. The Osage Project is located in Benton, Camden, Miller, and Morgan counties, Missouri.

In the application, Union Electric Company, dba AmerenUE requests Commission approval to authorize Lake Development LLC to construct 12 boat docks with 384 covered boat slips and 36 personal watercraft slips. The EA contains Commission staff's analysis of the probable environmental impacts of the proposal and concludes that approving the licensee's application, with staff's recommended environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," which was issued August 7, 2008, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the project number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-

free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Kimberly D. Bose,
Secretary.

[Docket No. ER08-54-006]

ISO New England, Inc.; Notice of Filing

August 8, 2008.

Take notice that on August 5, 2008, ISO New England, Inc. and the New England Power Pool submitted a transmittal letter and tariff sheets revising Market Rule 1, on August 7, 2008, a filing was submitted clarifying the transmittal letter.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.
