Title: Information Collection for College.gov Account Registration and Inspirational Message Features.

Frequency: On occasion.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 54,000.

Burden Hours: 8,100.

Abstract: College.gov's target audience is 9th–12th grade high school students with a focus on students from underrepresented populations. The purpose for including the account registration and inspirational message features in college.gov is to enhance the interactivity and engagement aspects of the site. These features are critical for fully engaging students in the site, for keeping their interest and attention, and for providing inspiration and hope to students (especially to underrepresented populations) that a postsecondary education is possible. The features also support the peer-to-peer aspect of the site and provide relatable role models of students "Just like them" that can show that higher education is possible for all students. Web site users have the option of registering with college.gov. In order to register, a user selects the registration link, inputs six data elements and, after providing consent to the site's terms and conditions, submits that information to the Department. Once the account registration process is completed, the user has the option of creating their own inspirational message by uploading a photo and adding their "I'm Going" statement about why they want to pursue education beyond high school. The inspirational message (hereafter "billboard") is saved within college.gov and can be shared with others. After a user creates a billboard, they can choose to: (1) Have their billboard featured on college.gov's home page (visitors can browse through approved user-generated billboards); (2) send their family, friends and other supporters a link to the college.gov home page with their billboard; (3) add a tool to their Facebook profile that displays their billboard and lets their friends provide messages of support and encouragement; or (4) add the billboard to any of their other Web sites.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3803. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202–4537. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202–401–0920. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339.

[Project No. 659–000]

Crisp County Power Commission; Notice of Authorization for Continued Project Operation

August 12, 2008.

On August 3, 2006, the Crisp County Power Commission, licensee for the Lake Blackshear, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Lake Blackshear Hydroelectric Project is located on the Flint River in Worth, Lee, Sumter, Dooly, and Crisp Counties, near Cordele, Georgia.

The license for Project No. 659 was issued for a period ending August 9, 2008. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project

has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 659 is issued to the Crisp County Power Commission, for a period effective August 10, 2008 through August 9, 2009, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before August 9, 2009, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise. If the project is not subject to section 15 of the FPA, notice is hereby given that the Crisp County Power Commission, is authorized to continue operation of the Lake Blackshear Hydroelectric Project until such time as the Commission acts on its application for a subsequent license.

Nathaniel J. Davis, Sr.,

Deputy Secretary.
