Title: Information Collection for College.gov Account Registration and Inspirational Message Features.

Frequency: On occasion.

Affected Public: Individuals or household.

Reporting and Recordkeeping Hour Burden:

Responses: 54,000.

Burden Hours: 8,100.

Abstract: College.gov's target audience is 9th–12th grade high school students with a focus on students from underrepresented populations. The purpose for including the account registration and inspirational message features in college.gov is to enhance the interactivity and engagement aspects of the site. These features are critical for fully engaging students in the site, for keeping their interest and attention, and for providing inspiration and hope to students (especially to underrepresented populations) that a postsecondary education is possible. The features also support the peer-to-peer aspect of the site and provide relatable role models of students "Just like them" that can show that higher education is possible for all students. Web site users have the option of registering with college.gov. In order to register, a user selects the registration link, inputs six data elements and, after providing consent to the site's terms and conditions, submits that information to the Department. Once the account registration process is completed, the user has the option of creating their own inspirational message by uploading a photo and adding their "I'm Going" statement about why they want to pursue education beyond high school. The inspirational message (hereafter "billboard") is saved within college.gov and can be shared with others. After a user creates a billboard, they can choose to: (1) Have their billboard featured on college.gov's home page (visitors can browse through approved user-generated billboards); (2) send their family, friends and other supporters a link to the college.gov home page with their billboard; (3) add a tool to their Facebook profile that displays their billboard and lets their friends provide messages of support and encouragement; or (4) add the billboard to any of their other Web sites.
