BILLING CODE 8025-01-P

DEPARTMENT OF STATE

[Public Notice 6326]

Notice of Availability of the Final
Environmental Assessment and A
Finding of No Significant Impact for
the Proposed PMI Frontera Juarez
Pipeline Project

August 15, 2008.

AGENCY: Department of State.

ACTION: Notice of Availability of the
Final Environmental Assessment and A
Finding of No Significant Impact for the
Proposed PMI Frontera Juarez Pipeline
Project.

SUMMARY: This notice announces the
availability of the Final Environmental
Assessment and a Finding of No
Significant Impact for the Proposed PMI
Frontera Juarez Pipeline Project.

On January 18, 2008, PMI Services
North America ("PMI") applied for a
Presidential permit to construct,
connect, operate and maintain a 10.75-
inch liquid hydrocarbon (gasoline and
diesel) pipeline for the transportation of
liquid hydrocarbon products between
the United States and Mexico, to be
located at the international border
between the United States and Mexico,
near San Elizario, Texas. Currently, the
refined products are transported across
the international border via trucks from
El Paso to Ciudad Jua rez. The Frontera
Juárez Pipeline would displace this
mode of delivery with the proposed net
effect of increasing safety and
decreasing the negative impact to the
local environment.

Executive Order 13337 of April 30,
2004, as amended, delegates to the
Secretary of State the President's
authority to receive applications for
permits for the construction,
connection, operation, or maintenance
of facilities, including pipelines, for the
exportation or importation of petroleum,
petroleum products, coal, or other fuels
at the border of the United States and to
issue or deny such Presidential Permits
upon a national interest determination.

The Executive Order directs the
Secretary of State to refer the
application and pertinent information
to, and to request the views of, the
heads of certain agencies before issuing
a Permit and authorizes the Secretary to
consult with other interested federal
and state officials, as appropriate. The
